SEASON-LONG, STATEWIDE ANTLERLESS DEER HUNTING

EXPANDED SUNDAY HUNTING

EARLIER-STARTING EXTENDED BEAR SEASON IN 16 WMU’s

RIFLES CAN’T BE USED IN FALL TURKEY SEASONS

CWD REGULATIONS UPDATED

BULLS CAN BE HUNTED IN JANUARY LATE ELK SEASON

EXTENDED DEER SEASONS IN WMU’s 2B, 5C & 5D

HUNTERS NO LONGER CAPPED AT THREE ANTLERLESS TAGS
Welcome to hunting and trapping in Pennsylvania

License buyers should be aware of the following changes taking place this year.

The statewide firearms deer season will feature concurrent hunting for antlered and antlerless deer throughout the season’s 14 days. A valid antlerless deer license or Deer Management Assistance Program (DMAP) permit is required to hunt and harvest antlerless deer. Allowing antlerless deer hunting throughout the season is not intended to increase the antlerless harvest, which is controlled through the allocation of antlerless licenses. • Sunday hunting has expanded. The three Sundays open to additional hunting — Nov. 14, Nov. 21 and Nov. 28 — no longer are for deer or bear only, but are open to other species that are in season, except for turkeys and migratory game birds. A Sunday hunting guide has been added to this digest. • Centerfire and rimfire rifles and handguns no longer are allowed for fall turkey hunting. The change provides an additional tool to respond to below-goal turkey populations. Previously, shortening the fall season was the primary method to help out turkey populations. This year, the fall season has been reduced in 15 of 23 Wildlife Management Units (WMUs) because turkey populations are below-goal there. By eliminating rifle use and reducing the fall turkey harvest, future season length reductions might be spared. • The extended bear season opener has been moved up and will begin on the first day of the firearms deer season — Saturday, Nov. 27. Bear hunting also will be open on Sunday, Nov. 28 in the WMUs where an extended season is held. • The number of elk licenses being made available has increased this year, and the late elk season will be open to bull hunting for the first time. Ten bull tags have been allocated for the January late season, and 56 of the 187 elk licenses allocated across three separate seasons are for bulls. The deadline to apply for the elk-license drawing once again is July 31. • The post-Christmas extended antlerless deer season will be held in all of WMUs 2B, 5C and 5D. Previously, the season was held within many of the counties in those WMUs, but it’s been set at the WMU level since antlerless harvests are evenly distributed throughout these WMUs, regardless of firearms restrictions. • Hunters statewide can now hold up to six unfilled antlerless deer licenses at a time. The previous three-license limit has been rescinded. Most hunters will be unaffected by the change. The total number of antlerless deer licenses continues to be limited by the allocation, the mail-in application process remains in place and licenses in most WMUs are expected to sell out in the mail-in rounds. But where licenses remain, hunters can buy more, holding up to six at a time, then apply for and receive additional licenses as they harvest and report deer. The limit of holding six unfilled licenses applies to all hunters statewide, including those in Special Regulations Areas. • Chronic Wasting Disease (CWD) continues to impact deer and deer hunting in Pennsylvania. Some Disease Management Area (DMA) boundaries have been adjusted due to newly detected CWD-positive deer. Additionally, an area within DMA 2 has been designated as a CWD Established Area with its own rules. See the CWD section at the back of this digest for more. • Landowners now have until July 1 to submit applications to enroll their properties in DMAP. • Legislation adopted in 2020 led the way for night-vision and infrared (thermal) optics to be used while hunting furbearers, except porcupines. The change was implemented in the 2020-21 license year and is reflected in this digest. • Digital licenses now may be carried afield as an alternative to carrying certain paper licenses. Harvest tags will continue to be issued in physical form on durable stock. No electronic versions of these documents will be issued or authorized for use, and durable-stock harvest tags still need to be carried in the field when hunting in big-game seasons or trapping seasons when harvest tags are used. • Your 2021-22 hunting or furtaker license was issued through a new platform, HuntFishPA, which among other features, allows customers to create their own profiles for easy license renewal.
Greetings:

The challenges we faced in 2020 had many folks looking forward to flipping the calendar to a new year. But COVID-19 couldn’t spoil Pennsylvania’s outdoors, and in a lot of ways, the pandemic allowed us to appreciate our time afield even more.

For the second straight year, more hunters took to Penn’s Woods, some of them seizing new and exciting opportunities that included their first-ever chance to hunt Pennsylvania big game on Sundays, or take part in an archery deer season running deeper than ever into the whitetail rut.

For many, it was an exceptionally satisfying season that provided welcome contrast to so much else, reminding us why it’s called the Great Outdoors. But now, as we flip the hunting and trapping calendar to a new year, the outlook is even better.

New opportunities again are creating excitement for hunters. Sunday hunting has been expanded to include other species that are in season, except for turkeys and waterfowl, on Nov. 14, Nov. 21 and Nov. 28. In Wildlife Management Units where it is held, the extended bear season has been moved up to start alongside the firearms deer season. It will be an opening weekend for both. The number of elk licenses has increased and the January late season, which in previous years has been open only to antlerless-elk hunting, this season will include 10 licensed bull hunters.

These are just a few examples of new opportunities in 2021-22 that build upon a strong yet developing foundation where creating opportunities for hunters and trappers continues to be demonstrated as one of the Pennsylvania Game Commission’s core goals.

Wildlife conservation couldn’t happen without hunters and trappers. They’re the reason we have wildlife and wild places like our vast network of state game lands. They carry forward our hunting and trapping traditions. We thank each and every one for the vital role they play and wish them yet another great season.

Wildlife Classifications

The Game and Wildlife Code protects all of Pennsylvania’s wildlife. The code classifies wildlife as follows:

**Game Animals**
Black bear, cottontail rabbit, elk, squirrel (red, gray, black and fox), snowshoe hare, white-tailed deer and woodchuck (groundhog)

**Game Birds**
Brant, bobwhite quail, cott, gallinule, geese, grouse, merganser, mourning and Eurasian collared dove, pheasant, rail, snipe, swan, wild ducks, wild turkey and woodcock

**Big Game**
Bear, elk, white-tailed deer and wild turkey

**Small Game**
Game birds and game animals not classified as big game

**Furbearers:**
Badger, beaver, bobcat, coyote, fisher, mink, muskrat, opossum, otter, pine marten, raccoon, red and gray fox, striped skunk, weasel and porcupine

**Protected Mammals**
Wild mammals not classified furbearers or game animals (For example, chipmunks are protected)

**Protected Birds**
Wild birds not classified game birds

Protection is removed from wildlife, except migratory birds, big game and threatened or endangered species, when personal property, other than an agricultural crop, is being destroyed or damaged. Wildlife may be taken only by the owner or person in charge of the personal property affected. Wildlife taken to protect personal property must be surrendered to a Game Commission representative.
To better assist hunters and residents, the Game Commission has six region field offices. Violations can be reported to region offices.

**NORTHWEST REGION**
Butler, Clarion, Crawford, Erie, Forest, Jefferson, Lawrence, Mercer, Venango & Warren counties
1509 Pittsburgh Road
Franklin, PA 16323
(814) 432-3187

Sunday hunting long has been permitted for foxes, coyotes and crows during open seasons.

In addition, expanded Sunday hunting will occur on three Sundays in 2021:

1. Sunday, Nov. 14
2. Sunday, Nov. 21
3. Sunday, Nov. 28

Turkeys and migratory game birds may not be hunted on any of these three Sundays. Other game that’s in season may be hunted on these Sundays. In 2021, Sunday hunting is open on the following dates for the following species:

1. **Sunday, Nov. 14**
   - Deer (archery), Bear (archery in WMUs 2B, 5B, 5C and 5D only), Squirrel, Pheasant, Rabbit, Grouse, Bobwhite Quail, Woodchuck, Crow, Raccoon, Fox, Coyote, Opossum, Striped Skunk, Weasel and Porcupine

2. **Sunday, Nov. 21**
   - Bear, Deer (archery in WMUs 2B, 5C and 5D only) Squirrel, Pheasant, Rabbit, Grouse, Bobwhite Quail, Woodchuck, Crow, Raccoon, Fox, Coyote, Opossum, Striped Skunk, Weasel and Porcupine
   - Coyote hunters during any big-game season must follow big-game orange requirements.

3. **Sunday, Nov. 28**
   - Deer, Bear, Raccoon, Fox and Coyote
   - Raccoons and foxes may be hunted only after legal hunting hours for deer. Coyote hunters during any big-game season must follow big-game orange requirements. Crows may not be hunted during the Regular Deer Firearms season.

On these three Sundays, hunters on private land are required to carry written permission from the landowner. The permission slip should be signed by the landowner, and should include the hunter’s name, address and CID license number, and the landowner’s name, address and phone number. Providing contact information for the landowner is the quickest and easiest way for a game warden to verify a landowner has granted permission to a hunter.

Aside from these exceptions, Sunday hunting is unlawful in Pennsylvania.

2021-22 PA Hunting & Trapping Digest
Sunday hunting generally is prohibited by state law, but is permitted during open seasons for foxes, coyotes and crows. Additionally, many seasons include hunting opportunities on one or more Sundays. They are:

1. Sunday, Nov. 14
2. Sunday, Nov. 21
3. Sunday, Nov. 28

Seasons that include these opportunities are noted.
### Small Game

**Squirrel**
- 6 daily, 18 possession
- **Combined Species**
- **JUNIOR HUNT**
  - Sept. 11-25
- **STATEWIDE**
  - Sept. 11-Nov. 26
  - Dec. 13-24
  - Dec. 27-Feb. 28

**Pheasant**
- 2 daily, 6 possession
- **JUNIOR HUNT**
  - Oct. 9-16
- **STATEWIDE**
  - Oct. 23-Nov. 26
  - Dec. 13-24
  - Dec. 27-Feb. 28

**Rabbit**
- 4 daily, 12 possession
- **JUNIOR HUNT**
  - Oct. 2-16
- **STATEWIDE**
  - Oct. 16-Nov. 26
  - Dec. 13-24
  - Dec. 27-Feb. 28

**Grouse**
- 2 daily, 6 possession
- **STATEWIDE**
  - Oct. 23-Nov. 26
  - Dec. 13-24

**Bobwhite Quail**
- 8 daily, 24 possession
- **STATEWIDE**
  - Oct. 23-Nov. 26
  - Dec. 13-24
  - Dec. 27-Feb. 28

**Snowshoe Hare**
- 1 daily, 3 possession
- **STATEWIDE**
  - Dec. 27-Jan. 1

**Woodchuck**
- No Limit
- **STATEWIDE**
  - No closed season, except during regular firearms deer seasons.

**Crow**
- No Limit
- **STATEWIDE**
  - July 2-April 10
  - Fridays, Saturdays, Sundays only

### Furtaking

The porcupine is classified as a furbearer, but, like the coyote, it can be hunted with either a hunting or furtaker license.

#### Hunting

**Raccoons**
- No Limit
- Oct. 23-Feb. 19

**Foxes**
- No Limit
- Oct. 23-Feb. 19

**Porcupines**
- 3 daily, 10 per season
- Oct. 9-Jan. 29

**Coyotes**
- No Limit
- No closed season, with certain exceptions during big-game seasons

**Bobcats**
- 1 per license year
- WMUs 2A, 2B, 2C, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E
- Jan. 8-Feb. 2
- Permit required

**Fishers**
- 1 per license year
- WMUs 1B, 1C, 2C, 2D, 2E, 2F, 2G, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E
- Dec. 18-Jan. 9
- Permit required

**River Otters**
- 1 per license year
- WMUs 1A, 1B, 2C, 3C & 3D
- Feb. 12-19
- Permit required

#### Trapping

**Foxes & Coyotes**
- No Limit
  - **GENERAL**
    - Oct. 23-Feb. 20

**Raccoons, Opossums, Striped Skunks & Weasels**
- No Limit
  - Oct. 23-Feb. 20

**Minks & Muskrats**
- No Limit
  - Nov. 20-Jan. 9

**Beavers**
- Limits vary by WMU
  - Dec. 18-March 31

**Bobcats**
- 1 per license year
  - WMUs 2A, 2B, 2C, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E
  - Dec. 18-Jan. 9
  - Permit required

### Additional Information

A pheasant permit is required for most pheasant hunters. See small game section for more details.
Fluorescent Orange Requirements

**Woodchuck Hunting**

A hat made of solid fluorescent orange, visible 360 degrees.

**All Small Game Seasons**

A minimum 250 square inches, on head, chest and back combined, visible 360 degrees.

**Deer, Bear or Elk Firearms Seasons**

A minimum 250 square inches, on head, chest and back combined, visible 360 degrees.

**October Muzzleloader Antlerless Deer & Bear Seasons**

A minimum 250 square inches, on head, chest and back combined, visible 360 degrees.

**Blinds & Enclosed Tree Stands**

A minimum of 100 square inches of fluorescent orange material (orange alert band) must be displayed within 15 feet of a blind or enclosed tree stand and visible 360 degrees during the firearms deer, bear and elk seasons. This is in addition to wearing orange while in the blind. See turkey section for specifics on blind use while turkey hunting.

**Wearing Orange**

No fluorescent orange is required during archery seasons when hunting for deer, bear or elk, or when hunting waterfowl, doves, turkeys, furbearers* or crows. In firearms seasons for deer, bear or elk, orange is required, regardless of the sporting arm carried.

Hunters participating in the after-Christmas flintlock muzzleloader season are not required to wear fluorescent orange (See Special Regulations Areas section for additional information).

Even when orange isn’t required, the Game Commission highly recommends the use of orange. For example, a fluorescent orange hat is recommended for turkey hunters while moving.

When fluorescent orange is required, the full amount of orange required for that season must be worn while moving from one hour prior to the start of legal hunting hours and for one hour past the closing of legal hunting hours.

It is unlawful to be on State Game Lands from Nov. 15 through Dec. 15, including Sundays designated as hunting days, when not engaged in lawful hunting or trapping without wearing a minimum of 250 square inches of fluorescent orange-colored material on the head, chest and back combined.

* Fluorescent orange is required when hunting coyotes during any big game season, if orange is required during that season, including from one hour before sunrise to one hour after sunset.

---

* Fluorescent orange is required when hunting coyotes during any big game season, if orange is required during that season, including from one hour before sunrise to one hour after sunset.

---

**Camouflage Fluorescent Orange**

Camouflage fluorescent orange may satisfy orange regulations when 250 square inches of safety material is required if the orange content is at least 250 square inches. When a hat containing 100 square inches of orange is specified, the cap must be solid fluorescent orange.
Wildlife Management Units (WMUs) are designed to improve wildlife management and, at the same time, simplify hunting and trapping regulations. Pennsylvania uses WMUs to manage all game, except elk, waterfowl and other migratory game birds. When using the Hunting & Trapping Digest, refer to this section whenever an unfamiliar WMU is referenced. See [www.pgc.pa.gov](http://www.pgc.pa.gov) for larger WMU maps and turn-by-turn descriptions of their boundaries.
STATE GAME LANDS
PUBLIC HUNTING AND WILDLIFE MANAGEMENT AREAS

GAME LANDS PROVIDE MORE THAN 1.5 MILLION ACRES OF PUBLIC LAND ACCESS
(SIZE OF THE STATE OF DELAWARE)

• 308 Separate Game Lands/Wildlife Management Areas.

• Game Lands Access is Available in 65 of Pennsylvania’s 67 Counties.

• Active Management on Thousands of Acres of Game Lands Each Year Creates Better Habitat for All Wildlife (Both Game and Non-Game).

• This Great Access Was Made Possible by Early Visionaries and their Forward-Thinking Decisions to Dedicate Public Lands for Wildlife, Hunting and Trapping.

THANK YOU FOR SUPPORTING PENNSYLVANIA WILDLIFE WITH YOUR PURCHASE OF A HUNTING LICENSE!
**LEGAL HUNTING HOURS**

for all small and big game are from

ONE-HALF HOUR BEFORE SUNRISE TO ONE-HALF HOUR AFTER SUNSET.

**PLEASE NOTE THE FOLLOWING EXCEPTIONS:**

1. During the **Regular Firearms Deer Season**, it is unlawful to take or attempt to take other wild birds or mammals, except game birds on regulated hunting grounds, migratory waterfowl, coyotes, feral swine, wild boar and bears.

2. **Raccoons, foxes, coyotes**, bobcats, striped skunks, opossums and weasels may be hunted any hour, day or night, except during restricted periods noted in Exception 1 (see furtaking section for more detail).

3. Hunting hours during **Spring Gobbler Season** are from one-half hour before sunrise until noon during the youth hunt, and from the opening day of the statewide season through the third Saturday. Beginning May 16, hours are from one-half hour before sunrise to one-half hour after sunset.

4. **Migratory birds** (waterfowl, doves, woodcock, snipe, rails and gallinules) may be hunted from one-half hour before sunrise until sunset, except during the **September Resident Canada Goose Season and the Snow Goose Conservation Season**, when geese may be hunted from one-half hour before sunrise until one-half hour after sunset.

5. Hunting hours for mourning doves are from one-half hour before sunrise until sunset during every segment of dove season. Doves are migratory birds. Do not reference the hunting hours table here for the quitting times for migratory birds; check the migratory game birds hunting hours table elsewhere in this digest.

*Note: Outside of any big game season (deer, bear, elk or turkey), coyotes may be taken with a hunting or furtaking license, and without wearing orange. During any big game season, coyotes may be taken while lawfully hunting big game (must follow orange requirements), or with a furtaking license.*

**HUNTING HOURS TABLE FOR MIGRATORY GAME BIRDS APPEARS ELSEWHERE IN THIS DIGEST.**

Daylight Saving Time Begins* Ends**
Mentored Hunting Program

Initially open only to youth under 12, the Mentored Hunting Program has expanded incrementally in recent years to offer opportunities to unlicensed hunters of all ages. Mentored hunters are not required to take a Hunter-Trapper Education (HTE) class before obtaining a permit to hunt through the program. Mentored hunters ages 12 or older may participate in the program for a maximum of three license years. After that period, they must obtain a license to hunt. Individuals who participate in the mentored program for at least three years before turning 12 are required to get a license at 12 rather than continuing as a mentored hunter. License buyers must first successfully complete an HTE course.

General Information

- A mentor (licensed hunter at least 21 years old) who serves as a guide to a mentored hunter must possess a valid, current hunting license or otherwise qualify for a license and fee exemptions.
- A mentored hunter must obtain a permit, which will contain their unique Customer Identification number (CID). A Social Security number is needed for a CID number to be issued. A Mentored Hunting Program permit can be obtained from any issuing agent or online at the Game Commission’s “HuntFishPA” platform. For mentored hunters ages 7 and older, the permit includes antlered deer, fall turkey and spring turkey harvest tags. No big-game harvest tags will be issued to mentored hunters who are under 7 years old at the time of application. Mentored hunters ages 7 and older each are eligible to apply for and receive one antlerless deer license, and as many DMAP harvest permits that are within the eligibility standards and limitations of these programs. All mentored hunters can purchase migratory bird licenses and pheasant permits. In addition to a Mentored Hunting Program permit, a mentored hunter needs a migratory game bird license to hunt any migratory game-bird species authorized for mentored hunting, and a pheasant permit to hunt pheasants. Mentored Hunting Program permit fees are $2.97 for resident and nonresident applicants under 12; $6.97 for resident applicants 12 to 16; $41.97 for nonresident applicants 12 to 16; $20.97 for residents 17 and older and $101.97 for nonresidents 17 and older. Antlered deer or turkey harvests by mentored hunters must be reported within five days. Harvests may be reported online at www.pgc.pa.gov, by using the harvest report cards in this digest, or by phone at 1-800-838-4431.
- A mentored hunter who participates in any hunting party shall count as a member of the hunting party for maximum allowed numbers.

Species, Seasons & Bag Limits

- A mentored hunter can hunt squirrels, rabbits, hares, ruffed grouse, bobwhite quail, pheasants, crows, doves, porcupines, woodchucks, coyotes, deer, and turkeys in any of their respective seasons, and must follow daily and season bag limits for each species (one antlered deer, one fall turkey and one bearded turkey in the spring, per license year). Mentored hunters 16 and under may follow the same deer antler restrictions as junior license holders, which is one antler at least 3 inches long or one antler with at least two points.
- A mentor can transfer one valid antlered deer harvest tag to a mentored youth who was under 7 years old at the time of application. The transfer may not occur until the mentored youth has harvested the antlered deer, and must occur before the deer is tagged. The youngster completes the tag information and attaches the tag to the deer’s ear. The mentor must report the deer and check the “taken by mentored youth” box on the harvest report card. A mentored youngster may not receive by transfer more than one antlered deer harvest tag each license year.
- A mentor can transfer one spring and one fall turkey harvest tag to a mentored youth who was under 7 years old at the time of application. Transfer may not occur until the mentored youth has harvested the turkey, and must occur before tagging the turkey. The youngster completes the tag information and attaches the tag to the turkey’s leg. The mentor must report the turkey and check the “taken by mentored youth” box on the harvest report card. A mentored youngster may not receive by transfer more than one spring and one fall turkey harvest tag each license year.
- A mentor can transfer one valid antlerless deer license and/or one Deer Management Assistance Program (DMAP) permit to a mentored youth who was under 7 years old at the time of application. Antlerless licenses are valid within the Wildlife Management Unit (WMU) for which they were issued, and DMAP permits are valid on the specific properties for which they were issued. The transfer of the antlerless license and/or DMAP permit may not occur until the mentored youth has harvested the antlerless deer, and must occur before tagging the deer. The youngster completes the tag information and attaches the tag to the deer’s ear. The mentor must report the deer and check the “taken by mentored youth” box on the harvest report card. A mentored youth may not receive by transfer more than one antlerless deer license and/or one DMAP permit each license year, and is ineligible to make direct application for an antlerless license and/or a DMAP permit.
- A mentored hunter 16 and under is eligible to hunt during any special youth hunting seasons for species open to mentored hunters. This includes the antlerless-deer-only Special Firearms season held in October for junior and senior license holders.
- Mentored hunters are exempt from requirements to obtain archery and muzzleloader add-on licenses or stamps applicable to hunting archery or muzzleloader seasons for any species that can be hunted in the mentored program.

Safety & Liability

- A mentored hunter 16 and under must be stationary (the state or condition where a person is still, fixed in place or static, indicated by a cessation of all forward, backward or lateral movement, whether in the standing, kneeling, sitting or prone position) and within arm’s reach of the mentor at all times while in possession of any lawful hunting device (any firearm or implement that is lawful to be possessed during the current season and used to harvest the particular species) while engaged in hunting or related activities.
- A mentored participant 17 or older must hunt within eyesight of his or her adult mentor, and at a proximity close enough for verbal instruction and guidance to be easily understood without the aid of electronic communication devices or sound-amplification devices.
- A mentor may not accompany more than one hunter at any given time while participating in the Mentored Hunting Program. For example, a mentor cannot accompany a mentored hunter and a licensed junior hunter at the same time. (A supervising adult can accompany any number of junior hunters outside of the Mentored Youth Hunting Program.)
- A mentored hunter 16 and under may not possess collectively more than one lawful hunting device at any given time while engaged in hunting or related activities. The mentor must carry the lawful device in transit to and from the spot.
- A mentor and mentored hunter must be in compliance with fluorescent orange requirements for the species they are hunting.
- A mentor is responsible and accountable for all actions of the mentored hunter occurring while engaged in hunting or related activities. A mentor who causes or allows a mentored hunter to engage in an unlawful act shall be punishable as the principal offender.
To enable the Game Commission to effectively manage and protect these invaluable land holdings for this and future generations of hunters, trappers and wildlife enthusiasts,

**Game Lands users may not:**

- Camp or use campsites.
- Contaminate, pollute or degrade groundwaters or surface waters or any waterways.
- Graze or permit the grazing of domestic livestock; place or maintain beehives or beekeeping apparatus.
- Solicit or place private advertisements, signs or posters.
- Plant, gather, cut, dig, remove or otherwise injure any plants or parts thereof, including trees, shrubs, vines, flowering plants and cultivated crops. (Mushrooms and fruits of berry-producing plants may be picked.)
- Travel on lands by means of any vehicle or conveyance propelled by motorized power. (Exemption for individuals with Disabled Person Permit for battery-powered motorized wheelchair.)
- Ride a non-motorized vehicle, conveyance or animal, except on roads normally open to public travel, or designated routes as posted, or while lawfully engaged in hunting, trapping or fishing.
- Ride a non-motorized vehicle, conveyance or animal from the last Saturday in September until the third Saturday in January, and prior to one hour after close of lawful hunting hours for spring turkey season from the second Saturday in April through the last Saturday in May, inclusive, except on Sundays or while lawfully engaged in hunting, trapping or fishing.
- Ride a non-motorized vehicle, conveyance or animal on roads open to foot travel only.
- Drive motor vehicles with or without attachments having a registered gross vehicle weight in excess of 12,000 pounds.
- Use boats propelled by a motor. Battery-powered electric motors may be used on waterways unless otherwise posted.
- Fish from dam breasts posted against fishing.
- Swim in any dam, pond, lake or stream.
- Injure, destroy or cause damage to property, real, personal or mixed.
- Remove or attempt to remove any manmade or natural object, except wildlife and fish lawfully taken. Objects that may not be removed include animals, rocks, minerals, sand and historical or archaeological artifacts.
- Participate in, become part of, contribute to or engage in disorderly conduct.
- Travel on roads open to vehicular travel with vehicle or conveyance propelled by motorized power that is not licensed or authorized for operation on a public highway.
- Violate, fail or neglect to follow instructions posted on signs authorized by the Executive Director.
- Destroy, mutilate or remove any sign or placard.
- Travel by mechanical or motorized conveyance or ride animals on newly constructed, seeded or planted roads, or other areas, when posted against travel.

- Travel by mechanical or motorized conveyance or ride animals on newly constructed, seeded or planted roads, or other areas, when posted against travel.
- Use or possess any controlled substance or drug paraphernalia.
- Occupy, use or construct, place or maintain structures or other tangible property, except that portable hunting blinds and stands may be used, provided no damage is caused to trees.
- Feed wildlife or place any food, fruit, hay, grain, chemical, salt or other minerals.
- Release any domestic animals, captive-bred or captive-raised game or wildlife.
- Operate a motor vehicle in willful and wanton disregard for the safety of persons or property or in excess of posted speed limits, or where no speed limit is posted, in excess of 25 mph.
- Target shoot with firearms, bows and arrows, or devices capable of launching projectiles, unless the person is in possession of a valid hunting or furtaker license signed by its holder. Exercise of privileges shall be done in a manner as to not cause injury to persons or property, or on areas not otherwise posted closed to those activities.
- Except as provided on established shooting ranges, discharge any firearm, bow and arrow or device capable of launching projectiles that is not a lawful device to hunt game or wildlife. Shoot clay birds anywhere except areas designated by the Executive Director by signs stating that clay bird shooting is permitted.
- Engage in any activity or event involving more than 10 persons, which may conflict with the intended purposes or uses of property, or poses a potential environmental or safety problem.
- Sell, distribute, deliver, service, guide or rent any equipment, material or commodity or otherwise transact or engage in any commercial activity. Such activity is when a person directly or indirectly accepts consideration of value as compensation for the provision of goods or services, including transportation.
- Use State Game Lands for any personal, organizational or commercial purpose other than the intended use of the property.
- Operate an unmanned aerial vehicle (drone) of any size, design or specification for any purpose whatsoever over lands or waters designated as state game lands.
- Operate under authority of a contract, lease, agreement or permit and fail to abide by the terms and conditions set forth.
- To be present on State Game Lands from Nov. 15 through Dec. 15 inclusive when not engaged in lawful hunting or trapping and fail to wear a minimum of 250 square inches of fluorescent orange material on the head, chest and back combined, or, in lieu thereof, a hat of the same colored material. Orange material must be visible 360 degrees. Persons using shooting ranges are exempted.
- Small open fires for cooking or warming purposes are permitted, except when the Fire Index Rating used by the Bureau of Forestry, DCNR, is high, very high or extreme. Fires must be contained and tended at all times.
- Snowmobiles, as defined in the All Terrain Vehicle Act of 1985, may be driven beginning the third Sunday in January through April 1, only on designated areas, roads and trails marked with appropriate signs. Snowmobiles must display a valid registration decal.
NEW CASCADE SB SERIES!

SHORT BARRELS

FOR COMPACT PLACES

CASCADE. GOLT-ACTION RIFLE

From blinds to backcountry, the new CASCADE SB Series features shorter barrels for tighter quarters or suppressor use.

The SB Series shares the same family features found in all of our CASCADE rifles, packing more value than any rifle in its class.

PROUDLY FOUNDED and HEADQUARTERED in PA
Baiting
Baiting is allowed conditionally on private property in the Southeast Special Regulations Area. See detailed information on the Special Regulations Areas page within this digest. Elsewhere in the state, it is unlawful to hunt in or around any area where artificial or natural bait, food, hay, grain, fruit, nuts, salt, chemicals or minerals, including their residues — regardless the type or quantity — are used, or have been used within the past 30 days, as an enticement to lure game or wildlife. Hunters are responsible for ensuring an area has not been baited before they begin hunting. They should physically inspect the area and question landowners, guides and caretakers. This section does not pertain to hunting near areas where accepted farming or habitat-management practices are taking place (example: hunting near food plots on game lands is legal). The manipulation of crops for dove hunting is permitted. Any natural or manmade nonliving bait can be used to attract coyotes for hunting or trapping.

Cultivated Lands
It is unlawful to 1) hunt in unharvested buckwheat, corn, sorghum or soybean fields without permission from the owner or caretaker; 2) operate a motor vehicle on any cleared field or private property without the landowner’s permission; 3) block lanes to cultivated fields, mailboxes or private property; 4) leave gates open; 5) damage real or personal property; 6) break down or damage fences, or 7) harass or injure livestock.

Decoys
Decoys simulating food — such as artificial corn to attract turkeys or waterfowl — are considered artificial bait and are illegal. The use of living decoys is prohibited for all hunting and trapping. Electronic decoys can be used for hunting crows, waterfowl and doves.

Disturbance of Game or Wildlife
It is unlawful for any person to drive or disturb game or wildlife except while engaged in lawful hunting or trapping. It is unlawful to dig out or take any wild bird or animal from its den or place of refuge.

Drugs & Alcohol
It is unlawful to hunt wildlife while under the influence of controlled substances or alcohol.

Electronic Devices
It is unlawful to hunt with any electronic contrivance or device, but the following exceptions apply: 1) Electronic callers to hunt bobcats, coyotes, foxes, raccoons, crows and snow geese in the conservation season, can be used. 2) Lighted pins on bow sights and scopes with lighted reticles may be used as long as they don’t cast a beam. Any device used as a sight or scope on any firearm, bow or crossbow that projects a light beam of any kind onto the target is unlawful. 3) Electronic illuminating devices that are affixed at the aft end of a bolt or arrow and used solely for the purpose of locating or tracking bolt or arrow flight after being launched from a crossbow or bow can be used. 4) Portable, two-way radios and cellphones may be used for general communications with another hunter, but may not be used to direct or alert another hunter of the presence or location of live game or wildlife. The use of electronic communication devices to alert hunters to live game only is not a violation of the Game & Wildlife Code, but violates the concept of fair chase. The use of portable radios does not satisfy the legal requirement of accompanying a junior hunter. The accompanying adult must be close enough to give verbal instructions without the aid of an electronic device. 5) Electronic sound-amplification devices that are incorporated into hearing-protection devices and completely contained in or on the hunter’s ear may be used when hunting. 6) Any manually operated firearm that uses an electronic impulse to detonate the primer or main powder charge of the ammunition, unless such firearms are specifically prohibited, can be used. 7) Electronic rangefinders, including handheld devices and those contained within a scope or archery sight can be used. This authorization may not be construed to permit a device that emits any light beam, infrared beam, ultraviolet light beam, radio beam, thermal beam, ultrasonic beam, particle beam or other beam that is visible outside of the device or on the target, with the exception of fur bearers who now can use handheld and sporting-arm mounted night-vision and infrared (thermal) optics for hunting coyotes, foxes, bobcats, raccoons, striped skunks, opossums and weasels. 8) Electronic devices used for locating dogs while training and hunting are permitted. 9) Electronically heated scent or lure dispensers, and electronic devices that distribute ozone gas for scent-control purposes may be used.

Field Possession Limits
It is unlawful on the opening day of a hunting season to 1) possess more than the daily limit; 2) after the second day, possess more game than may be legally taken in three days. A Field Possession Limit is the maximum number of legally taken wildlife, per species, that a person may legally possess or transport between the place of taking and the person’s permanent place of residence.

Firearms — Handguns
A License to Carry Firearms permit is required to carry a handgun concealed, or have it loaded in a motor vehicle. License to Carry Firearms permits are issued by county sheriff or the Philadelphia Chief of Police. While engaged in activities regulated by the Game & Wildlife Code, a License to Carry Firearms permit only entitles the holder to carry handguns that fall within this classification. Sportsman’s Firearms Permits are issued by county treasurers. A person holding a Sportsman’s Firearms Permit may not carry a concealed handgun or a loaded handgun in a motor vehicle and may not carry a handgun while bowhunting or spotlighting.

Firearms — Loaded in Vehicles
A firearm is considered loaded when there is live ammunition in either the chamber or attached magazine. It is unlawful to 1) have a loaded firearm in, on or against any motor vehicle (or any attachments to the vehicle), regardless of whether the vehicle is moving or stationary; and 2) have a loaded firearm in watercraft under power, or shoot from a powered watercraft until the motor has been shut off and the craft has come to a complete stop. Holders of License to Carry Firearms permits are exempt, but keep in mind that most sporting firearms are not authorized by the permit. It is prohibited to have any muzzleloading firearm that has a live charge of ammunition in its firing chamber and a primer, flash powder or a battery, whichever is applicable, properly positioned in the firing mechanism of the firearm, rendering it capable of discharge, in, on or against any conveyance propelled by mechanical power. Any crossbow that has been cocked and has a bolt affixed onto the string or positioned into the firing mechanism of the device is prohibited in, on or against any conveyance propelled by mechanical power. For safety, a loaded muzzleloader or crossbow should be safely discharged before those devices are transported in a vehicle.

Firearms — Magazine Capacity
Manual or autoloading shotguns to hunt small game, furbearers, turkeys, waterfowl or crows must be limited to a 3-shell capacity in the chamber and magazine combined. A plug must be a one-piece filler installed so it cannot be removed without disassembling the
gun or magazine. There is no restriction on magazine capacity for semiautomatic rifles used to hunt small game and furbearers.

**Firearms & Devices — Unlawful & Permitted**

It is unlawful to hunt with automatic firearms. Semiautomatic (autoloading) rifles, air- or gas-operated rifles and manually operated handguns may be used for hunting small game and furbearers (Details in those sections). Semiautomatic rifles may not be used for hunting deer, bear or elk. Hunting with semiautomatic handguns is prohibited. Semiautomatic centerfire shotguns that propel single-projectile ammunition can be used while hunting deer, bears and elk. Centerfire rifles and handguns may not be used for fall turkey hunting.

**Injury Reports**

If you are involved in an incident where someone has been injured by a firearm or archery equipment, either as a victim or the person causing injury (including self-inflicted injuries), you must report the incident to the Game Commission within 72 hours. Obtain the proper forms from a game warden, complete in duplicate and return them to the warden, or mail to the Game Commission’s Harrisburg headquarters. Failure to submit a report is unlawful, as is fleeing, or failing or refusing to render immediate and full assistance to an injured person.

**License Information**

It is unlawful to hunt or trap wildlife without first obtaining the required hunting or furtaker licenses. All hunters should be sure they have the proper and applicable licenses and tags in their possession for the seasons and species they intend to hunt or trap before heading afield. It’s unlawful to carry the license of another person while hunting, or in transit to or from hunting. The possession of expired, fulfilled, revoked, suspended or invalid licenses or harvest tags while hunting or trapping also is unlawful. While afield, in addition to their licenses, hunters are required to have in their possession additional cards or papers that must be shown to a game warden or landowner upon request to confirm identification.

**Littering**

It is unlawful while hunting or trapping to leave or deposit any garbage, bottles, cartons, containers, glass, paper or debris, except in a receptacle for that purpose.

**Lures & Scents**

Except in CWD Disease Management Areas, estrous scents and lures, or other non-food-source cover scents are legal for deer. Scents and lures that contain any form of natural or artificial foodstuff, including, but not limited to, corn, apple and acorns are not legal. Use of dip devices is legal, as well as electronically heated scent or lure dispensers, with legal scents and lures, and electronic devices that distribute ozone gas for scent-control purposes. The use of scents or lures while hunting bears is prohibited.

**Mistake Kill**

Any person who kills any wildlife while hunting or trapping by accident or mistake shall immediately field-dress any edible game and deliver the carcass to a game warden in the county in which it was killed. Any person who by accident or mistake kills any deer (an antlerless deer in mistake for an antlered deer, an antlered deer in mistake for an antlerless deer, or an antlered deer that does not meet required antler restrictions) shall immediately, but no later than 24 hours after the kill, deliver and surrender the entire carcass, less entrails, to any game warden in the county in which it is killed and make a written, sworn statement explaining when, where and how the accident or mistake occurred. Each licensed person who kills any deer shall immediately, and before moving the carcass, fully complete the proper tag in compliance with printed instructions and attach only the tag to the deer’s ear. Use the tag you would have used for the animal you are legally licensed to take. A beardless turkey killed by mistake during the spring turkey season must be tagged with a spring gobbler tag. In the event a tag is not available to meet the above requirements, use the tag in possession that allowed you to hunt legally. The deer will be turned in to the game warden, restitution of $25 for each mistake deer shall be paid, and the hunter will be issued another tag to pursue another deer. Failure to report and deliver a deer killed by accident or mistake is punishable with a fine up to $1,500 and license revocation. For information on where to deliver a deer killed by accident or mistake, or information about anyone who has failed to report a deer killed by accident or mistake, contact the Game Commission region office servicing the area.

**Recovering Wildlife & Trespassing**

It is unlawful for a hunter to refuse or neglect to make a reasonable effort to retrieve any killed or injured game or wildlife. Hunters attempting to recover wildlife are not permitted to enter private property without permission. A hunting license does not give you the right to trespass on private property. In fact, a game warden can issue a hunter a citation for trespassing on private property, even if game-law violations aren’t alleged. A new law allows the use of purple paint on trees or posts as a lawful posting method on private property in all but Allegheny and Philadelphia counties.

**Road-killed Deer/Possessing Wildlife**

It is unlawful at any time to possess live wildlife, except foxes for which a permit has been issued. In most cases, animals or parts of animals killed on highways may not be possessed. Pennsylvania residents may possess deer or turkeys killed by motor vehicles, for personal consumption only, if they secure a permit number from the Game Commission within 24 hours after picking up the deer or turkey. Call the appropriate region office. An individual should keep the head and hide of a roadkill for at least 48 hours, unless directed differently by the local game warden. It is not legal to kill or “put out of its misery” any injured wildlife. Again, call the region office. It is unlawful to give to another person the whole or edible parts of a deer killed on a highway. It is unlawful to keep, for personal consumption only, any injured wildlife. Again, call the region office. Animals or parts of animals killed on highways may not be possessed.

**Road Hunting**

It is unlawful to 1) hunt from a vehicle; 2) aid or assist another while hunting from a vehicle; 3) shoot at wildlife on a public road or right-of-way open to public travel; 4) shoot across a road unless the line of fire is high enough to preclude any danger to road users; and 5) alight from a vehicle and shoot at any wildlife until the
General Hunting Regulations

shooter is at least 25 yards from the traveled portion of the roadway. NOTE: These provisions do not prevent an individual who may not qualify for a Disabled Person’s Permit, but who has health concerns or problems, to sit in or near a legally “parked” vehicle and watch for game. Loaded firearms may never be placed in, on or against any motor vehicle, its trailer or other attachments, at any time.

Safety Zones

It is unlawful to hunt for, shoot at, trap, take, chase or disturb wildlife within 150 yards of any occupied residence, camp, industrial or commercial building, farmhouse or farm building, or school or playground without the permission of the occupants. It is unlawful to shoot into a safety zone, even if you are outside of the zone. Driving game, even without a firearm or bow, within a safety zone without permission is unlawful. For comparison, think of a safety zone as about one and a half football fields. Hunting on hospital and institutional grounds, and in cemeteries, also is prohibited. It is unlawful to discharge a firearm within 150 yards of a Game Commission vehicle if its occupants are releasing pheasants. The safety zone for archery hunters statewide, including those using crossbows, is 50 yards. But around playgrounds, schools, nursery schools or day-care centers, the safety zone remains 150 yards. Archery hunters carrying muzzleloaders during any muzzleloader season must abide by the 150-yard safety zone regulation.

Spotlighting Wildlife

It is unlawful to 1) spotlight wildlife while in possession of a firearm, bow and arrow, or other device capable of killing wildlife. Individuals who have a License to Carry Firearms permit are excepted, but only regarding their carrying of firearms authorized by the permit. Most sporting arms are not authorized. 2) spotlight wildlife during the regular firearms deer season, including those days separating the season, as well as any late extended firearms deer seasons in the Special Regulations Area counties; and 3) cast an artificial light upon any building, farm animal or photoelectric cell. Recreational spotlighting is lawful between sunrise and 11 p.m., except as previously noted. Spotlighting includes handheld lights, accessory spotlights on vehicles and vehicle headlights when intentionally used to locate or view wildlife. A person hunting raccoons, skunks, opossums, bobcats, weasels, foxes and coyotes on foot may use a handheld light, including a gun-mounted light. Fur bearer hunters may not use a flashlight or spotlight that projects a laser light beam.

Tracking Dogs

Dogs are not permitted to hunt big game, except for turkeys during the fall. Leashed tracking dogs can be used to track a white-tailed deer, bear or elk in recovery of an animal that has been legally killed or wounded during any open season for deer, bear or elk. No permit is required. The tracker cannot dispatch game that was wounded and will be tagged by a hunter. The tracker must be properly licensed for the animal being tracked. The tracker must abide by hunting hours and wear the required amount of fluorescent orange clothing for the season. All laws pertaining to the taking of game apply. Trackers cannot charge for their services on state game lands. Permission is needed before entering private property.

Additional Regulations & Restrictions

Many landowners (federal, state and local governments) open areas to hunting and trapping, but apply more restrictive regulations. An example is the Erie National Wildlife Refuge in Crawford County, where the use or possession of toxic shot is prohibited for shotgun hunting for all species, except turkeys and deer. Hunters and trappers are responsible for knowing rules and regulations on lands they intend to hunt or trap.

Dog Training Regulations

• There is no closed season for training dogs, except on state game lands, where all dog-training activities are closed from the Monday prior to the start of youth pheasant season until the opening day of the statewide pheasant season.
• A hunting or furtaker license is not required for dog training.
• Dogs may not be trained on private land on Sunday without the landowner’s permission.
• A person may not carry a rifle, shotgun or bow and arrows while training dogs, except those who possess a dog training permit, or while hunting chukars or pigeons that are released and shot on State Game Lands for dog training.
• Dogs are not permitted to injure or kill wildlife. Owners are liable for any wildlife killed or injured by dogs. When training dogs, hunters need to be aware of and avoid areas, especially wetlands, where birds are nesting.
• All hunters are urged to respect dog owners and their sport. Dogs can be attracted by electronic calling devices, as well as turkey calls. Be sure of your target. While the law requires dogs to be under the control of their owner or handler at all times, dogs often are not within sight of their handler while tracking game. Dogs cannot read no-trespassing signs and do not heed fences. If you see a hunting dog running or barking, its handler probably isn’t far behind. It is unlawful for dogs to chase or pursue big game, however, the Game Commission recommends that dogs not be shot unless they are actually in the act of attacking a big-game animal and there is no other option. If you see a dog or dogs chasing any deer, bear, elk or turkey (dogs are permitted for hunting turkeys in the fall), please contact the Game Commission and report the violation. Hunting-dog owners have significant amounts of time and money invested in their dogs, and they consider their dogs hunting partners and friends. Please do not shoot hunting dogs just because you do not immediately see their handler.
• There are appropriate penalties in the Game and Wildlife Code to deter owners from permitting their dogs to chase big game. If you shoot a dog that is not attacking a big-game animal you could be subject to prosecution under the Crimes Code as a misdemeanor offense, with penalties of up to $5,000 and two years imprisonment, as well as civil liability for the restitution of the dog. Any person who destroys a dog (licensed or unlicensed) attacking a big-game animal must report the incident to the dog’s owner or a game warden within 48 hours, as required by law.
• Electronic devices may be used for locating dogs while training or hunting, including such devices as e-collars, radio-telemetry dog-tracking systems and beeper collars.
• In areas that are identified as woodcock habitat management areas, dogs are prohibited for any reason from April 1 to July 15.

Dogs should be handled in a safe and humane manner, with adequate consideration to temperature and ventilation in transportation cages and compartments.
Appalachian Trail & Delaware Water Gap Recreation Area

Hunters are reminded that hunting or discharging firearms, and use of off-road vehicles, including ATVs, are prohibited on National Park Service (NPS) lands acquired for the protection of the Appalachian National Scenic Trail.

Individuals can possess firearms on national park or refuge lands if they are legally permitted to carry a firearm in the state and municipality where they are located.

Sections of the Appalachian Trail that run through State Game Lands are not subject to the listed regulations.

Please be advised that State Game Lands regulations require any group consisting of 10 or more people using the game lands, including trails, to obtain a Special Use Permit.

Maps that show NPS lands where hunting is prohibited can be viewed at the Appalachian Trail Conservancy Regional Office in Boiling Springs, Pa. (717-258-5771).

Small open fires for cooking or warming purposes may be kindled, used and maintained by persons exercising the privileges of a valid hunting, furtaker or fishing license and through-hikers within the corridor of the Appalachian Trail.

This exception to the prohibition on fires is applicable only where the small fires are located at places where adequate precautions are taken to prevent the spread of fire, and the index rating used by the state Department of Conservation and Natural Resources is not High, Very High or Extreme for that area.

The Delaware Water Gap Recreation Area (DEWA) is a unit of the NPS. Trapping, hunting over bait, hunting in standing unharvested crops, Sunday hunting and spotlighting are prohibited. Only portable tree stands can be used and must be removed each day. A PA hunting license is required to hunt in the PA portion of the park. A NJ license is required to hunt in the NJ portion of the park. Most areas of the DEWA are open to hunting. Check the Compendium of Regulations for any closures at www.nps.gov/dewa/learn/management/compendium.htm.
Lawful Arms & Ammunition

Deer and Bear, Regular Seasons
- Manually operated (pump, lever, bolt actions, single-shot) centerfire rifles, and handguns (revolvers or single-shots) with all-lead bullet or ball, or bullet designed to expand on impact;
- Manually operated or semiautomatic centerfire shotguns (shotguns do not have to be plugged) that propel single-projectile ammunition;
- Muzzleloading long guns of any type, 44 caliber or larger, or a muzzleloading handgun 50 caliber or larger, and;
- Long, recurve, compound bows (minimum draw weight of 35 pounds) or crossbows (minimum 125-pound draw weight), with a broadhead that has an outside diameter or width of at least 7/8 of an inch and may not exceed 3.25 inches in length. The use of buckshot is not legal, except in the Southeast Special Regulations Area.

Bear Archery Season
- Long, recurve and compound bows (minimum draw weight of 35 pounds), or crossbows, with a legal broadhead (see broadhead stipulations that follow).

Deer Archery Seasons
- Long, recurve and compound bows (minimum draw weight of 35 pounds), and crossbows, and legal broadheads (an outside diameter or width of at least 7/8 of an inch and may not exceed 3.25 inches in length). Magnifying scopes and sights such as red dot on crossbows can be used. Persons hunting deer in the archery seasons may not possess a firearm, except those individuals who have a License to Carry Firearms permit, and then only those firearms authorized by the permit (most sporting arms are not authorized). Muzzleloading firearms also can be carried by bowhunters during any muzzleloading season, providing the hunter has an archery license and a muzzleloader license and meets the fluorescent orange requirements of the muzzleloader season.

Dual-Carry Rules
Possession of any firearm while archery hunting is prohibited unless the individual possesses a license to carry a concealed firearm. Archery hunters are permitted to carry a muzzleloading firearm only during overlaps of archery deer or bear season with a muzzleloader deer or bear season.

Bow & Arrow Equipment Definitions
- Arrow - A projectile shot from a bow with an overall length exceeding the brace height of the bow with fletching designed only for guidance at the aft end and a broadhead mounted on the fore-end. No electronic tracking device shall be part of or attached to the arrow. No device, material or system capable of causing damage or injury to the animal in excess of that inflicted by the cutting edges of the broadhead shall be part of or attached to any arrow. A projectile for a crossbow is known as a bolt.
- Bow - A device for launching an arrow, which derives its propulsive energy solely from the bending and recovery of two limbs. The energy used to propel the arrow may not be derived from another source. These limitations shall not exclude the mechanical leverage advantage provided by eccentric wheels or cams so long as the energy stored in the bent limbs of the bow is the sole result of a single, continuous and direct pulling effort by the shooter. The bowstring must be drawn and released as a direct and conscious action by the shooter. Release shall be accomplished by either relaxing the tension of the fingers or triggering the release action of a manually operated release aid.
- Broadhead - Must have a fixed or mechanical tip having sharpened cutting edges consisting of metal or naturally occurring stone. The broadhead must have an outside diameter or width of at least 7/8 of an inch, and the length may not exceed 3.25 inches.
- Crossbow - Must have a draw weight not less than 125 pounds.

Muzzleloader Deer & Bear Seasons
- October Antlerless Deer Season & Bear Season - Any single-barrel muzzleloading long gun with flintlock, in-line or percussion ignition 44 caliber or larger, or 50 caliber or larger handgun. Scope sights permitted.
- Flintlock Season - Flintlock-ignition, single-barrel long guns manufactured prior to 1800, or a similar reproduction of an original muzzleloading single-barrel long gun 44 caliber or larger, or 50 caliber or larger handgun, using a single projectile. It is unlawful to use telescopic sights. Late-season flintlock hunters are permitted to take an antlered deer or an antlerless deer anywhere in the state with their unused antlered deer tag.

Fall Turkey Season
- Manually operated and semiautomatic shotguns limited to no more than three shells in the chamber and magazine combined;
- Muzzleloading shotguns, muzzleloading rifles and muzzleloading handguns, and;
- Long, recurve, compound bows (minimum draw weight of 35 pounds) or crossbows with legal broadheads (defined earlier). Single-projectile ammunition or shotshell pellets no larger than No. 4 lead, No. 2 steel or No. 4 of any other composition or alloy of nontoxic shot approved by the U.S. Fish and Wildlife Service.
- During any fall season in WMU 2B, as well as in Special Regulations Area county, Allegheny, only shotguns and long, recurve, compound bows or crossbows with broadheads of cutting-edge design are permitted.

Spring Gobbler Season
- Manually operated and semiautomatic shotguns limited to no more than three rounds in the chamber and magazine combined;
- Muzzleloading shotguns of all types and gauges; and
- Long, recurve, compound bows (minimum draw weight of 35 pounds) or crossbows with legal broadheads (defined earlier). Shotgun fine shot pellets only, no larger than No. 4 lead, No. 2 steel or No. 4 of any other composition or alloy of nontoxic shot approved by the U.S. Fish and Wildlife Service. Rifle/shotgun combinations may be used if ammunition is confined
**Spring Gobbler Season (continued)**

to shotgun shells. Possessing or using single-projectile ammunition, rifles, handguns, dogs, electronic callers or live decoys is unlawful. It is unlawful to conduct drives for turkeys. Hunting by calling only. Hunting hours are one-half hour before sunrise until noon from the opening day through the third Saturday (including the Youth Spring Turkey Hunt), and then to one-half hour after sunset for the remainder of the season. Hunters are asked to be out of the woods by 1 p.m. when closing time is noon.

**Hunting Parties**

It is unlawful to hunt deer, elk or bears in a party of more than 25 persons.

**Elk Season**

- Manually operated centerfire rifles and handguns at least 26 caliber using all-lead projectiles or bullets of at least 120 grains designed to expand on impact;
- Manually operated or semiautomatic centerfire shotguns (shotguns do not have to be plugged) that propel single-projectile ammunition. Shotguns must be at least 12-gauge;
- Muzzleloading firearms (including handguns) at least 50 caliber propelling a single projectile weighing at least 210 grains;
- Bow with a minimum draw weight of 45 pounds;
- Crossbows with a minimum draw weight of 125 pounds
- Any arrow or crossbow bolt with a broadhead that has an outside diameter or width of at least 1 inch, and the length may not exceed 3.25 inches.
- See Elk Section for dual-carry sporting implements rules when hunting elk.

**Big Game Regulations**

**Restrictions**

**Bear Season**

It is unlawful to 1) kill a bear in a den; 2) use a radio to locate a bear to which a radio transmitter has been attached 3) use scents or lures.

**Blinds**

Blinds can be used for big game (see turkey section for specifics for blinds while turkey hunting), however, a minimum of 100 square inches of fluorescent orange material (orange alert band will suffice) must be displayed within 15 feet of the blind and visible in a 360-degree arc during the firearms deer, bear and elk seasons. This is in addition to wearing orange while in the blind.

**Dogs**

It is unlawful to use dogs to hunt elk, bears, deer or spring turkey.

**Organized Drives**

It is unlawful to drive or herd elk, or drive turkeys. For deer and bear, an unlicensed person who has never held a hunting license in Pennsylvania or any other state may participate in a drive for a properly licensed hunter providing the following requirements are met: The person remains in sight and close to a hunter at least 18 years of age; the unlicensed person does not possess any firearm, bow or other hunting device; and the person complies with requirements for wearing fluorescent orange. The ratio of licensed hunters to non-licensed hunters must not exceed 1:1.

**Tree Stands & Blinds**

It is unlawful while hunting or preparing to hunt to 1) damage any tree on public or private property by constructing a tree stand or using a portable tree stand or device to climb a tree; 2) use or occupy a tree stand that, when constructed, damages a tree. This does not apply to landowners constructing stands on their own property, or persons who have received written permission from a landowner to build or use a tree stand; 3) tree stands on state game lands can be placed out not more than two weeks before the first and must be removed no later than two weeks after the final deer season in that area. Placing a tree stand does not reserve the area for its owner; other hunters can hunt there. Tree stands and portable hunting blinds left on state game lands and other Hunter Access properties under the Game Commission’s management need to be conspicuously marked with a durable and legible identification tag that includes the owner’s first and last name and legal home address, or bears the CiD number that appears on the owner’s hunting license or a number issued by the Game Commission to the stand or blind owner. Equipment ID numbers are assigned to license buyers and found in their customer profiles at https://huntfish.pa.gov.

**Shooting at Random**

During the open seasons for deer and bears, it is unlawful to shoot at any target other than legal game. Target shooting is lawful only when done: 1) on property owned by the shooter or by a guest of the property owner; 2) within 200 yards of a camp or headquarters where the shooter is either quartered or an invited guest; 3) at an established shooting range. The target must be protected by a natural or artificial barrier so that the bullet or arrow cannot travel more than 15 yards beyond it.

**Unfit for Consumption**

Any person who legally harvests any big-game animal and discovers the flesh is unfit for human consumption at the time of harvest shall, within 12 hours following the discovery, deliver the entire carcass, less entrails, but including the head and hide, to any Game Commission game warden who, being satisfied that the game was unfit for human consumption at the time of harvest, shall issue written authorization to the person to harvest a second animal or bird of the same species during the unexpired portion of the season for that species.

**Transporting Big Game**

Deer, bear, elk and turkey under transport, including those taken outside of Pennsylvania, must have an appropriate tag completed and attached. Unmarked parts of a big-game carcass taken in Pennsylvania may be transported. Upon request of any Game Commission law-enforcement officer, the name and address of the person who killed the animal must be furnished, along with other information necessary to properly establish legal possession.
Tagging Big Game

Hunters who harvest a deer, bear, elk or turkey must follow instructions printed on tags supplied with licenses. Harvest tags must be filled out with a ballpoint pen. The new green harvest tags have boxes with months and date numbers on the back of them. The hunter must cut the correct date of harvest in completing the tag.

Harvested bears, turkeys and elk must be tagged immediately after harvest and before the carcass is moved. Deer, however, can be tagged any time before the carcass is moved. A prior regulation had required a hunter to tag any harvested deer before attempting to take another. That regulation has been rescinded.

The harvest tag must be attached to the ear of a deer or bear, or the body of an elk and remain attached until the animal is processed for consumption or prepared for mounting. Turkey tags must be attached to the bird’s leg.

Tagging requirements for persons authorized to hunt without a license are identical, except that a homemade tag must be used listing the hunter’s name, address, game harvested and date, time, WMU, county and township where it was taken.

It is unlawful to possess an expired, fulfilled, revoked, suspended or invalid big-game harvest tag or hunting license while engaged in hunting or trapping activities.

Reporting Big Game Harvests

Each hunter who harvests a deer or turkey must report it to the Game Commission within 10 days (five days for turkeys or deer taken by mentored hunters, or persons required to make a homemade tag) by sending in a postage-paid report card received with this digest, or making a report online or over the phone. Be sure to read report cards thoroughly before filling out. Use one report card per animal harvested. For second-license turkey and DMAP antlerless deer, where reporting is required regardless of harvest success, be sure to check the “no harvest” box if no game is harvested. Hunters also can report their big-game harvests online at the agency’s website: www.pgc.pa.gov by following instructions given there. Hunters and trappers also can report their deer, turkey, bobcat and fisher harvests over the telephone by calling 1-800-838-4431. Hunters will need to have their license and information from the tag used, including the tag number.

Within 24 hours, each person who harvests a bear or elk must take the animal, along with hunting license and bear or elk license, to a Game Commission check station for examination. Bear check stations are maintained at Game Commission offices and at other locations listed elsewhere in this digest. The Elk Check Station is located at the Elk Country Visitor Center, 950 Winslow Hill Road, Benezette. The GPS coordinates are 41.3231 N and 78.3695 W. Check station hours are Monday 10 a.m. - 7 p.m. and Tuesday - Saturday 10 a.m. - 6 p.m.

Feral Swine

Feral swine have no place in Pennsylvania. They damage wildlife habitats, will kill birds and young mammals, and transmit a host of dangerous diseases. Because feral swine have no natural predators, they can live anywhere, and reproduce rapidly, and are difficult to control in the best circumstances.

In some areas of the state, protection may be removed from feral swine by an executive order of the director; however, to increase the efficiency of eradication efforts, protection may be applied to townships or counties where eradication trapping operations actively are being conducted. If you think you may have encountered feral swine, refer to www.pgc.pa.gov, for specific details on townships or counties that may have restrictions on incidental shooting of feral swine.

Feral swine may be hunted during lawful daylight hunting hours, except Sundays, with a hunting or furtaker license. However, feral swine may be taken from the first day to the last day inclusive of any big-game season only by persons who have a valid tag and are lawfully engaged in hunting big game. Those hunting feral swine with a firearm are required at all times to wear 250 square inches of fluorescent orange material on the head, chest and back combined.

Firearm and archery equipment is restricted to lawful arms and ammunition identified in the Game & Wildlife Code Sec. 2308. Those killing feral swine, must contact the nearest Game Commission region office within 24 hours, so samples can be collected for disease testing.

State Forests & State Parks

Firearms and archery equipment may be uncased only in designated hunting areas during the seasons state recreation areas are open to hunting.

In park areas not open to hunting, or during closed hunting seasons, firearms and archery equipment must be kept in the owner’s car, trailer or camp.

Hunting, trapping, pursuing or intentionally disturbing wildlife in state parks is prohibited, except that hunting and trapping by licensed hunters and furtakers is permitted in designated areas in compliance with Game Commission regulations. Trapping may be permitted in areas not designated for hunting, but only upon written approval, which is granted only when effective wildlife administration of the area requires trapping.

Dog training is permitted from the day following Labor Day through March 31 in designated hunting areas. Groundhog hunting is prohibited in state parks.

The Bureau of Forestry welcomes hunters and trappers to more than 2 million acres of state forests. Only small areas around occupied buildings are posted. Overnight camping is permitted only in areas designated by the district forester.

Required permits are available from local forestry offices. For more information about hunting on state parks, contact the Bureau of State Parks, 1-888-PA-PARKS, visit www.dcnr.pa.gov, or write State Parks, 8th Floor, P.O. Box 8551, Harrisburg, PA 17105-8551, or call your nearest state park.

For more information or maps concerning hunting and recreational activities on state forests, contact the Bureau of Forestry, 6th Floor, P.O. Box 8552, Harrisburg, PA 17105-8552. Phone: 717-783-7941, or your nearest forestry office.
20% OFF
Regular Price Of Any One Item In Stock With Coupon

*Exclusions may be mandated by the manufacturers. Excludes: Firearms, ammunition, licenses, Nike, Perception, select TaylorMade, select Callaway, Carhartt, Costa, Crocs, Merrell footwear, Oakley, Ray-Ban, New Balance, Terastron Blinds, Under Armour, Yeti, Columbia, Garmin, Tennis balls, Titleist golf balls, GoPro, Nerf, Lego, Leupold, Fitbit, arcade cabinets, bats and ball gloves over $149.98, shanties, large bag deer corn, GPS/fish finders, motors, marine batteries, motorized vehicles and gift cards. 2021-22 PA Hunting & Trapping Digest
Deer

**Hunters are limited to 1 antlered deer per license year, and 1 antlerless deer for each antlerless license or permit.**

**License Requirements**

A general hunting license is required to hunt in any season. One antlered deer per license year can be taken with a general hunting license. An unused, antlered deer harvest tag from a general hunting license can be used to take an antlerless deer during the after-Christmas flintlock muzzleloader season. This is the only season in which the antlered tag can be used for antlerless deer, and each participant in the flintlock muzzleloader season must have a muzzleloader license in addition to a general license. A muzzleloader license also is needed to participate in the October muzzleloader season for antlerless deer. With the lone exception of the flintlock muzzleloader season, each hunter must possess an antlerless deer license or DMAP permit in order to hunt or harvest antlerless deer. One antlerless deer may be taken with each valid license or permit. Statewide, each hunter is limited to holding a maximum of six unfilled antlerless deer licenses. Hunters who obtain six antlerless licenses may apply for and obtain additional licenses as they harvest antlerless deer and report them, so long as licenses remain available. For any WMU, sales of antlerless licenses end when the total number of licenses allocated for that WMU is expended. The Special Firearms season for antlerless deer is open to junior and senior license holders, mentored youth, active-duty military and certain disabled persons. Resident and nonresident hunters who hold a valid hunting license or qualify for fee exemptions, and who are 65 or will reach their 65th birthday in the year of the license application, are eligible to hunt in the season. Participants in any archery deer season must possess an archery license in addition to a general license.

**Concurrent Seasons**

Statewide, properly licensed hunters may take antlered and antlerless deer throughout the 14-day Regular Firearms season. In Wildlife Management Units where antlerless deer hunting days have been added to the season, license allocations were adjusted and fewer antlerless deer licenses may be available. This makes it more important than ever for antlerless deer license applicants to submit their applications on schedule. Application instructions can be found elsewhere in this section.

**Tagging Deer**

After harvesting a deer, a hunter must detach the deer harvest tag from his or her license, fill it out using a ballpoint pen and securely attach it to the ear of the animal. The new green harvest tags have boxes with months and date numbers on the back of them, and a hunter must cut them with the correct month and day of harvest. Be sure to use the correct tag and be careful not to attach the actual hunting license. The harvest tags have animal icons on them. There are two holes in the center of the tag that can be punched to insert a string, twist tie or safety pin. Deer must be tagged before the carcass is moved. The tag must remain attached to the ear until the animal is processed for consumption or prepared for mounting. The bar code on the right edge of the tag should be positioned near the ear tip, unobstructed, so Game Commission personnel can scan it if the deer is documented as part of work to calculate the annual statewide deer harvest. Hunters sometimes ask why a harvest tag must be attached to a deer’s ear rather than an antler or some other part of the animal. Requiring that deer be tagged in the ear ensures that the tag stays with the head and valuable scientific information can be collected. If tagging on the antler were allowed, harvest-tag information for bucks largely would be unavailable to Game Commission researchers, since antlers typically leave the butcher shop with the hunter.
Deer Hunting Regulations

Arms & Ammunition

**Archery Deer Seasons**

- Long, recurve, compound bows (minimum draw weight of 35 pounds), and crossbows with broadheads of cutting-edge design. An arrow and crossbow bolt must be equipped with a broadhead.
- Magnifying scopes and red-dot sights can be used on crossbows.
- A broadhead is a fixed or mechanical tip affixed to the fore end of an arrow or bolt having sharpened cutting edges consisting of metal or naturally occurring stone. The broadhead must have an outside diameter or width of at least 7/8 of an inch, and the length may not exceed 3.25 inches.
- Persons hunting deer in the archery seasons may not possess a firearm, except those individuals who have a License to Carry Firearms permit, and then only those firearms authorized by the permit (most sporting arms are not authorized). Muzzleloading firearms also can be carried by bowhunters during any muzzleloading season, including muzzleloader bear season with a bear license, providing the hunter has an archery license and a muzzleloader license and meets the fluorescent orange requirements of the muzzleloader season.

**Firearms Deer Seasons**

- Manually operated centerfire rifles, handguns and shotguns with all-lead bullet or ball, or a bullet designed to expand on impact.
- Semiautomatic centerfire shotguns that propel single-projectile ammunition.
- Muzzleloading long guns of any type, 44 caliber or larger, or a muzzleloading handgun 50 caliber or larger; and
- Long, recurve or compound bows and crossbows with broadheads of cutting-edge design.

See Special Regulations Areas section for restrictions that apply there.

**October Antlerless Muzzleloader Season**

- Any single-barrel muzzleloader long gun with flintlock, percussion or in-line ignition, 44 caliber or larger, or 50 caliber or larger handgun. Scope sights permitted.

**Special Antlerless Deer Only Firearms**

- Arms and ammunition permitted during the Regular Firearms Deer Seasons can be used in this season.

**Flintlock Muzzleloader Season**

- Flintlock ignition, single-barrel long gun, 44 caliber or larger, or 50 caliber or larger handgun, using single-projectile ammunition. It is unlawful to use telescopic sights. Peep sights are permitted.

**Fluorescent Orange Requirements**

**Antlered & Antlerless**

- During the regular and special deer seasons, and any extensions of these seasons, all hunters must wear at least 250 square inches of fluorescent orange on the head, chest and back combined (example: orange cap and coat/vest visible 360 degrees). Camouflage fluorescent orange may satisfy this regulation if the total orange content is at least 250 square inches.

**Archers**

- Fluorescent orange is not required while hunting for deer during archery seasons. Orange is required, however, by hunters using archery equipment during regular firearms deer seasons. The requirement to wear fluorescent orange during all overlap periods when archery hunters were required to wear varying amounts of orange while moving or post orange while in a fixed position has been eliminated. The use of fluorescent orange, though, is highly recommended for all seasons, whether required or not.

**Muzzleloader Deer**

- During the late flintlock deer season, muzzleloader hunters are not required to wear or display fluorescent orange. However, during the October antlerless muzzleloader deer season, hunters are required to wear the same 250 square inches of fluorescent orange required of all big-game season hunters. See the Special Regulation Areas section for more details.

**Tips for a safe and successful big-game drive**

- **Plan your drives** – Be organized. Everyone must know their role. Decide how many drivers are needed and where standers will be located.
- **Communicate** – Stay in constant communication with other drivers so that you know the location of those around you.
- **Know your zone** – Be aware of your zone of fire. Identify the areas in front of you where you can safely attempt a shot, knowing that those areas are changing as you move across the landscape.
- **When in doubt, don’t shoot** – If forced to make a split-second decision about whether it is safe to take a shot, err on the side of caution and don’t shoot.

**CWD UPDATE**

Information on Chronic Wasting Disease in Pennsylvania, restrictions that apply within Pennsylvania’s Disease Management Areas and its Established Area, and management of the disease can be found in the purple section, near the end of this digest. Additional information, including a look at the Game Commission’s CWD Response Plan, is available at

www.pgc.pa.gov/cwd
All other hunters must abide by additional antler restrictions

Senior license holders must abide by antler restrictions, as well.

- A point is defined as any antler projection (including the brow tine) at least one inch in length from base to tip. The brow tine is the point immediately above the antler burr.
- The main beam tip shall be counted as a point regardless of length.
- An antlerless deer will remain defined as a deer without antlers, or a deer with antlers, both of which are less than 3 inches in length. A protected deer is one not defined as an antlered deer or an antlerless deer.

In most of the state

hunters are required to abide by three points on one side.

In WMUs 1A, 1B, 2A, 2B & 2D

hunters are required to abide by “three up”; three points, including the main beam counted as one of the points, on one side, excluding the brow tine (the point immediately above the antler burr).
Antlerless Licenses

Application Schedule

July 12  RESIDENTS
July 19  NONRESIDENTS
Aug. 2  UNSOLD, 1ST ROUND
Aug. 16  UNSOLD, 2ND ROUND

Sept. 13  OVER-THE-COUNTER SALES
FOR WMUS WHERE LICENSES REMAIN

By mail only, until over-the-counter sales begin.

One application per hunter per round. Up to two applications per hunter in the unsold, first round, if hunter did not receive license in the regular first round. Up to three applications per hunter in second round unsold, if hunter did not receive license in the previous rounds.

Over-the-counter sales are sold through county treasurer offices. Licenses may be obtained in person or by mail.

Mentored permit holders can obtain only one antlerless license.

Applications Sent by Mail

All mailed-in antlerless deer license applications must be sent in the official pink envelope. Hunters statewide may submit one application each in 1.) the opening round 2.) the first unsold round, and 3.) the second unsold round. Multiple applications may be submitted at once when over-the-counter sales begin. In no round may more than three applications be sent in the same envelope. Up to three hunters may submit applications using the same envelope.

Application Instructions

• Application forms can be obtained on:
  • The green panel issued with the license
  • Online at www.pgc.pa.gov
  • On the tear-out card attached with the harvest report cards in this digest

• Cost for each antlerless license is $6.97 for residents and $26.97 for nonresidents.

• On the application form, the hunter must enter at least one Wildlife Management Unit (WMU) preference.

• The hunter may select up to three WMU preferences. If the first is sold out, a license will be issued for the second, or if necessary, the third preference based on license availability.

• General information about WMUs can be found in this digest. For specific boundary descriptions, visit www.pgc.pa.gov.

• Remember to sign and date your application, and please print plainly.

• Include a check or money order payable to “County Treasurer.” The amount must be in U.S. dollars.

• Completed antlerless deer license applications and checks or money orders must be placed in the official pink envelope described above and mailed, with return postage on return envelope portion, directly to any County Treasurer of your choice (addresses listed in this section).

• Do not mail applications to the Game Commission.

Personal License Limits

All hunting license holders (a mentored permit is not a hunting license) may now apply for and obtain up to six antlerless deer licenses before the start of hunting seasons, for any WMU in which licenses remain available. Hunters statewide are limited to holding six unfilled antlerless deer licenses. Hunters who obtain six antlerless deer licenses may apply for additional licenses, if available, as they harvest deer and report them. Hunters who report harvests online through HuntFish.PA.gov or call to the Customer Support line at 1-800-838-4431 instantly become eligible to purchase another license, if any are available. Those reporting by mail will not be eligible to buy another license until their report is logged. Because the harvest of antlerless deer is managed by the allocation of antlerless licenses, and allocations are adjusted based on scientific data on deer populations, antlerless licenses in most WMUs likely will sell out long before a hunter reaches his or her license limit. But in WMUs where licenses remain, enabling more hunters to purchase antlerless licenses increases their opportunity and helps to achieve deer-management goals.

Over-the-Counter Sales Period

Beginning Sept. 13, antlerless licenses may be purchased over-the-counter at County Treasurers offices, or by application mailed to any County Treasurer, for any WMU where licenses remain. Since hunters statewide may hold up to six antlerless deer licenses at a time, and hunters may obtain no more than three antlerless deer licenses during the initial mail-in rounds, each hunter will qualify for at least three additional licenses at the time over-the-counter sales begin, although licenses in many WMUs will be sold out by then. Applications made by mail during the over-the-counter sales period can be submitted through the same process as in earlier mail-in rounds, though hunters may submit more than one application at a time until the six-license limit is reached. Antlerless licenses for any WMU may be purchased from any County Treasurer. When applying by mail, a hunter may submit up to three applications per envelope. If a hunter qualifies to purchase more than three licenses during the over-the-counter sales period, and chooses to make application by mail, separate envelopes will need to be mailed. Group applications (no more than three applications total per envelope) also may be made by mail during the over-the-counter sales period.

Application Status

• County Treasurers will accept applications on a first-come, first-serve basis. No drawings will be held. Lottery occurs when the county treasurer enters the applicant into the system.

• County Treasurers will accept applications on a first-come, first-serve basis. No drawings will be held. Lottery occurs when the county treasurer enters the applicant into the system.
Antlerless Licenses

• Successful applicants will receive their antlerless deer licenses after the 2nd Monday in September. Hunters should call the county treasurer who issued the license if they don’t receive it in the mail.

• Hunters can check the status of their applications by logging into https://huntfish.pa.gov and selecting Purchase History. Then, open the current year and search for the antlerless deer license. Only successful applications for an antlerless deer license will display, after the county treasurer has processes the application. Unsuccessful applications will be returned to the hunter, who may apply for a license for another WMU where licenses remain available by using a new pink envelope. During over-the-counter sales, application may be made in person.

Incomplete Application
• If an application is not complete and/or proper remittance is not enclosed, it will be rejected and returned to the applicant.

Insufficient Postage
• If the applicant failed to provide return postage, no license will be issued and the envelope will be placed in a dead letter file in the County Treasurer’s office. Hunters can retrieve their dead letters by contacting the County Treasurer for instructions.

Antlerless Deer License Regulations
• Antlerless deer licenses are WMU-specific. An antlerless deer license is valid only in the WMU for which it is issued. The use or attempted use of an antlerless license in another WMU is a violation of the law. County Treasurers issue available licenses for all WMUs, not just those within their county.

• Applications are limited to no more than three per envelope.

• Applications will not be accepted by County Treasurers prior to the start of the application period. Applications will be rejected and returned.

• All hunters must have a valid antlerless deer license or permit to harvest an antlerless deer. Exception: During the after-Christmas flintlock season, a properly licensed flintlock hunter may use his or her unused antlered tag to harvest an antlerless deer anywhere in the state. A WMU-specific antlerless license, or valid DMAP permit, is required for each additional antlerless deer harvested.

• Archers must have a valid antlerless deer license or permit to harvest an antlerless deer. Muzzleloader hunters must have a valid antlerless deer license or permit to participate in the antlerless-only muzzleloader deer season (Oct. 16-23).

• Junior and Senior license holders, Disabled Person Permit (to use a vehicle) holders and Pennsylvania residents serving on active duty in the U.S. Armed Forces must have a valid antlerless deer license or permit to participate in the antlerless-only Special Firearms season (Oct. 21-23).

• Once obtained, a properly licensed hunter may use an antlerless deer license in any season in which it is legal to harvest an antlerless deer.

• Each antlerless deer license includes its own ear tag.

Landowner Antlerless Deer Licenses
Qualified resident and nonresident applicants for landowner antlerless deer licenses (see license section in the back of this digest for qualifications) must apply directly to the County Treasurer of the county where the qualifying acreage is located.

These licenses must be applied for prior to the start of the regular application period, which begins the second Monday in July. If the qualifying acreage is located within a county with two or more WMUs, the applicant selects the WMU he or she desires.

If the applicant or his or her agent cannot apply in person, a completed application, proper remittance ($6.97 for residents, $26.97 for nonresidents), proof of ownership and a Landowner Antlerless Deer License Application/Affidavit (available from County Treasurers, Game Commission offices or www.pgc.pa.gov) should be mailed to the Treasurer in a plain envelope marked “Landowner Antlerless Application.”

Applicants who apply by mail must include a self-addressed, stamped return envelope. Do not use the official pink envelope and do not mail the material to the Game Commission.

Disabled Veteran Antlerless Deer Licenses
Qualified resident applicants who have a service-incurred 100% disability, or the loss of use of one or more limbs, may apply to any County Treasurer for the WMU in which they desire to hunt. Regardless of allocations or application deadlines, only one antlerless deer tag is guaranteed per license year.

If an applicant or his or her agent cannot apply in person, the applicant should mail the antlerless deer license application, $6.97 remittance and supporting documents (Veterans Administration form letter) directly to a County Treasurer in a plain envelope marked “Disabled Veteran Antlerless Application.”

Applicants who apply by mail must include a self-addressed, stamped return envelope. Do not use the official pink envelope or mail the material to the Game Commission. Application for these licenses may occur at any time during the license year. Resident disabled war veterans with a service-incurred disability rating between 60 and 99 percent do not qualify for this license.

Armed Forces Antlerless Deer Licenses
Qualified residents serving on active duty in the U.S. Armed Forces, or within 60 days from honorable discharge, may apply to any County Treasurer for the WMU in which they desire to hunt.

Regardless of allocations or application deadlines, only one antlerless deer license is guaranteed.

If the applicant or his or her agent cannot apply in person, the antlerless deer license application, $6.97 remittance and supporting documentation (official orders) may be mailed to a County Treasurer using a plain envelope marked “Armed Forces Antlerless Application.”

Applicants who apply by mail must include a self-addressed, stamped return envelope. Do not use the official pink envelope or mail the material to the Game Commission. Application for these licenses may occur at any time during the license year.

Replacement Antlerless Deer Licenses
Applicants who lose their antlerless deer license may obtain a replacement by applying to any County Treasurer.

If the applicant or his or her agent cannot apply in person, their completed, mail-order Application/Affidavit for Replacement of a Lost Antlerless Deer License (form available on the Game Commission’s website) and $6.97 remittance may be mailed to a County Treasurer using a plain envelope marked “Replacement Antlerless Application.”

Applicants must include a self-addressed, stamped return envelope.

Do not use the official pink envelope and do not mail the material to the Game Commission.
### 2021-22 Antlerless Deer License Allocation

This year's allocation, the increase or decrease from last year, and 2020 sell-out date provided.

### Antlerless License Applications

One application is attached to your license and others can be found with the tear-out report cards in this digest and on the Game Commission’s website.
Deer Management Assistance Program

DMAP Allows Hunters to Assist Landowners Achieve Deer-Management Goals

For Landowners:

Public landowners, political subdivisions, government agencies, private landowners or lessees where no fee is charged for hunting, and any defined hunting club are eligible for the program.

A hunting club is defined as a corporation or legal cooperative that owns its enrolled acres in fee title, was established prior to January 1, 2000, and has provided its club charter and list of current members to the Game Commission.

Landowners can download applications and instructions from the Game Commission’s website at www.pgc.pa.gov. Applications must be submitted to local Game Commission region offices and postmarked by July 1.

Finding Landowner Information

Contact information for public lands and some private lands enrolled in DMAP will be posted online at www.pgc.pa.gov. Contact information for private landowners enrolled in DMAP is posted only with permission of the landowner. Hunters without access to the Internet can obtain listings of eligible DMAP properties by mailing a self-addressed, stamped envelope, along with a letter indicating their county of interest, to the Game Commission region office responsible for that particular county. For more information on the Department of Conservation and Natural Resources’ participation in the DMAP program, visit www.dcnr.pa.gov.

For Hunters:

Each DMAP permit enables a hunter to harvest an antlerless deer on the specific property for which the permit is issued.

Landowners participating in DMAP may make permits available for hunters to purchase directly through license-issuing agents and online through https://huntfish.pa.gov, or they can choose to issue coupons to hunters that hunters then may redeem to purchase permits at any license-issuing agent or online.

For DMAP properties where landowners provide coupons to hunters, hunters can purchase up to four DMAP permits. On all other properties, the limit is two DMAP permits per hunter.

If a landowner isn’t issuing coupons, hunters, before purchasing permits, might need to contact the landowner to get the DMAP unit number for the property, or for properties open to public hunting, go to www.pgc.pa.gov to find the unit number.

Hunters can apply for DMAP permits as soon as landowner applications are approved and landowners are notified by the Game Commission. Permits for many DMAP properties are available when hunting licenses for the new license year go on sale.

A DMAP permit costs $10.97 for a resident, and $35.97 for a nonresident.

Hunters on DMAP properties may hunt antlerless deer in any deer season, using the sporting arm and/or implement allowed during that season. The hunter must be properly licensed for the season; for example, archery or muzzleloader licenses are required to take antlerless deer with DMAP permits during those seasons.

A mentor can transfer one DMAP permit that’s been issued to him or her to an eligible mentored hunter below age 7. Mentored hunters 7 and older can apply for their own DMAP permits (see Mentored Hunting Programs elsewhere in this digest).

A valid DMAP permit held by a mentor for potential transfer shall be kept in the mentor’s possession at all times while hunting antlerless deer, and transferred after the mentored hunter under age 7 has harvested the antlerless deer, and before tagging the deer.

Reporting on harvest success is mandatory for all DMAP permit holders, regardless of whether a deer is taken.

Hunters: Help Us Detect Tuberculosis

Help prevent Tuberculosis (TB) from being introduced into the wild white-tailed deer and elk herds in Pennsylvania. The bacteria known as Mycobacterium bovis can cause infection in most mammal species. Some wildlife species susceptible to bovine TB include: white-tailed deer, elk, bison, mule deer, black bears, bobcats, coyotes, opossums, raccoons and foxes. We are asking hunters who observe anything that resembles this photo to contact the Game Commission immediately. These abscesses may be found in tissues throughout the body, as well as in the tonsils and lymph nodes. When cut open, these nodules contain yellow-green or tan pus. Tan or yellow lumps may be found throughout the chest cavity and in the lungs. The lungs also may develop dark and firm areas. Read more about TB on at www.pgc.pa.gov.
Special Regulations Areas

SPECIAL REGULATIONS AREAS INCLUDE:

- In western Pennsylvania, all of Allegheny County.
- In southeastern Pennsylvania, all of Bucks, Chester, Delaware, Montgomery and Philadelphia counties, and also during special controlled hunts at Ridley Creek and Tyler state parks.

Deer

All Special Regulations Area counties are now contained within the Wildlife Management Unit system. Seasons and antler restriction requirements are based mostly on these units and general deer seasons. However, certain laws and regulations in regards to arms and ammunition still apply to specific counties in Special Regulations Areas.

Deer & Bear Season, Arms & Ammunition

- Allegheny County – Centerfire rifles are not lawful. Muzzleloading long guns 44 caliber or larger, bows and arrows, crossbows, manual or semiautomatic shotguns, .410 or larger using slugs. Buckshot is not permitted.
- Philadelphia County – Only bows and arrows, including crossbows.
- Remaining Counties – Centerfire rifles are not lawful. Muzzleloading long guns, 44 caliber or larger, manual or semiautomatic shotguns, .410 or larger, using slugs; 20-gauge or larger, using buckshot, bows and crossbows. Crossbows must have a minimum draw weight of 125 pounds. Ridley Creek and Tyler state parks – Manual or semiautomatic shotguns 20-gauge or larger using buckshot during special regulated deer hunts only, bows and arrows and crossbows.

Fluorescent Orange Requirements

**OCTOBER MUZZLELOADER ANTLERLESS SEASON**
Oct. 16-23
- 250 square inches of fluorescent orange on the head, chest and back combined, and visible from 360 degrees, is required at all times.

**SPECIAL FIREARMS ANTLERLESS SEASON (STATEWIDE)**
Oct. 21-23
Junior, senior license holders, disabled person permit holders and PA residents serving on active duty in the U.S. armed forces
- 250 square inches of fluorescent orange on the head, chest and back combined, and visible from 360 degrees, is required at all times.

**DEER FIREARMS SEASON (ANTLERED AND ANTLERLESS, STATEWIDE)**
Nov. 27-Dec. 11
- 250 square inches of fluorescent orange on the head, chest and back combined, and visible from 360 degrees, is required at all times.

**FLINTLOCK SEASON (ANTLERED AND ANTLERLESS)**
WMUs 2B, 5C & 5D: Dec. 27-Jan. 29; Other WMUs Dec. 27-Jan. 17
- Fluorescent orange is not required, but keep in mind a firearms deer season is open and it is suggested that orange be worn.

**EXTENDED ANTLERLESS FIREARMS SEASON**
WMUs 2B, 5C & 5D: Dec. 27-Jan. 29
- 250 square inches of fluorescent orange on the head, chest and back combined, and visible from 360 degrees, is required at all times.

**SMALL GAME**
WMUs 2B, 5C & 5D
- 250 square inches of fluorescent orange on the head, chest and back at all times is required. Furbearer and crow hunters do not need to wear fluorescent orange. Woodchuck hunters must wear a solid fluorescent cap visible 360 degrees.

Manually operated or semiautomatic 22-caliber or less rimfire rifles and manually operated 22-caliber or less rimfire handguns. A manually operated or semiautomatic air rifle or manually operated air handgun in calibers from .177 to .22 that propel a single-projectile pellet or bullet. BB ammunition cannot be used.

Small Game, Furbearers & Crows, Arms & Ammunition

Manually operated or semiautomatic shotguns plugged to a 3-shell capacity; manually operated or semiautomatic 22-caliber or less rimfire rifles and manually operated 22-caliber or less rimfire handguns; and bows and crossbows. Buckshot is not permitted. A manually operated or semiautomatic air rifle or manually operated air handgun that propel a single-projectile pellet or bullet for small game in calibers from .177 to .22. For woodchucks and furbearers, air guns must be 22-caliber. BB ammunition cannot be used.
Turkey

Fall season 1 bird, either sex

- Oct. 30-Nov. 19; Nov. 24-26
  - WMU 2B
- Oct. 30-Nov. 6
  - WMUs 1A, 1B, 4A, 4B, 4D & 4E
- Oct. 30-Nov. 13
  - WMUs 2A, 2F, 2G, 2H, 3A, 3B, 3C, 3D & 4C
- Oct. 30-Nov. 13; Nov. 24-26
  - WMUs 2C, 2D & 2E
- Nov. 2-4
  - WMU 5B
- Closed to fall hunting
  - WMUs 5A, 5C & 5D

Spring season Up to 2 bearded birds, (1 per day) with proper licenses.

**SPRING TURKEY HUNTING IS OPEN STATEWIDE**

**YOUTH HUNT**

- **April 23, 2022**

**STATEWIDE SEASON**

- **April 30-May 31, 2022**

**Hunting Hours**

Hunting hours during the April 23 youth hunt, and from April 30 to May 14 of the statewide season begin one-half hour before sunrise and end at noon. Hunters are asked to be out of the woods by 1 p.m. during those periods. From May 16 to May 31, hunting hours begin one-half hour before sunrise and end one-half hour after sunset.

**Arms & Ammunition**

1) Manually operated and semiautomatic shotguns limited to a three-shell capacity in the chamber and magazine combined; 2) Muzzleloading shotguns, muzzleloading rifles and muzzleloading handguns; 3) Long, recurve, compound bows (minimum draw weight of 35 pounds) or crossbows with legal broadheads (see broadhead requirements in fall season section).

**Fluorescent Orange**

Turkey hunters are no longer required to wear fluorescent orange material, although it is strongly recommended that they do so.

**Mentored Hunters**

Mentored hunters may participate. Birds taken by mentored hunters under the age of 7 must be tagged with a harvest tag transferred from the youth’s mentor. Each mentored hunter may take only one turkey during the spring.

**No Stalking**

Hunting by calling only.

**Bearded Birds**

Only turkeys with visible beards are legal. It is suggested, though, that hunters refrain from knowingly harvesting bearded hens because they nest and raise broods.

**Dogs**

Dogs may not be used during the spring season.

**Arms & Ammunition**

1) Manually operated and semiautomatic shotguns limited to a three-shell capacity in the chamber and magazine combined; 2) Muzzleloading shotguns of all types and gauges; 3) Long, recurve, compound bows (minimum draw weight of 35 pounds) or crossbows with legal broadheads (see broadhead requirements in fall season section).

**Fine shot no larger than No. 4 lead, No. 2 steel or No. 4 of any other approved nontoxic shot. Rifle/shotgun combination guns may be used if ammunition is limited to shotgun shells. Carrying or using single-projectile ammunition, rifles or handguns is unlawful.**

**Mentored Hunters**

Mentored hunters may participate. Harvest tags are provided to mentored hunters 7 and older. Birds taken by mentored hunters under the age of 7 must be tagged with a harvest tag transferred from the youth’s mentor. Each mentored hunter may take only one turkey during the spring.

**Youth Hunt**

Only licensed junior hunters and properly permitted mentored youth (16 and under) may participate, and must be accompanied by an adult as required by law (see License Information section). Each hunter may harvest only one bearded bird during the Youth Hunt. Birds harvested by mentored youth under age 7 must be tagged with a harvest tag transferred to the Mentored Youth from his or her adult mentor.

**Dogs**

Dogs may not be used during the spring season.
Turkey

Blinds

The use of turkey blinds is legal under the following definition:
Any artificial or manufactured turkey blind consisting of all manmade materials of sufficient density to block the detection of movement within the blind from an observer outside the blind.

Artificial or manufactured turkey blinds consisting of all manmade materials means blinds must be constructed of plastic, nylon, canvas, cotton cloth, plywood or other manmade materials.

Blinds made by piling rocks, logs, branches, etc. are unlawful. The blind must completely enclose the hunter on all four sides and from above to block the detection of movement within the blind.

Turkey-hunting blinds that represent the fanned tails of turkeys are illegal to use in Pennsylvania because they do not hide all hunter movement from behind or within.

Portable hunting blinds left on state game lands and other Hunter Access properties under the Game Commission’s management now need to be conspicuously marked with a durable and legible identification tag that includes the owner’s first and last name and legal home address, or bears the CID number that appears on the owner’s hunting license or a number issued by the Game Commission to the blind owner. Identification numbers can be obtained at HuntFishPA on the Game Commission’s website.

Tagging, Reporting Requirements

Successful turkey hunters must follow all instructions printed on tags supplied with licenses.

Separate tags are provided for fall and spring seasons. The turkey must be tagged immediately after harvest and before the carcass is moved. The tag must be securely attached to a leg until the bird is prepared for consumption or mounting. Once you have used your tag, it is unlawful to possess it in the field. Also, please remember to remove your old hunting license from your possession while in the field. It is unlawful to possess old licenses while hunting.

Within 10 days of harvest (five days for mentored hunters), turkey hunters must report harvests to the Game Commission, either by going online to the Game Commission’s website, www.pgc.pa.gov, calling toll-free, or by sending in a postage-paid report card received with this digest.

Hunters reporting their turkey harvests over the telephone through by calling 1-800-838-4431. Hunters will need to have their license and information from the completed tag, including the tag number, beard length and spur length.

All hunters reporting harvests are asked to identify the WMU, county and township where the bird was taken.

Hunters who purchase a second spring gobbler license have a mandatory reporting requirement, regardless of whether they harvest a bird using this special license. For more details, see the “Tagging, Transporting & Reporting” section under “Big Game Regulations” in this digest.

Live Decoys, Drives and Electronic Calls

In both spring and fall turkey seasons, it is unlawful to possess or use live turkeys as decoys, or conduct drives for turkeys or use electronic callers or devices.

SAFE IN YOUR STAND

Each year in Pennsylvania, countless hunters are injured or die in tree stand falls. If each hunter wore a full-body harness, and made sure to attach it to the tree at all times while climbing or hunting, 100 percent of severe falls to the ground could be eliminated. So when you head afield this year, hunt safely, wear a harness every time you hunt from a tree stand. And return home safely to share the stories of every hunt.
STILL THE DEADLIEST MUSHROOM IN THE WOODS.

Since 1939, hard-hitting Core-Lokt has been the number one choice of deer hunters across America. Trust filling your tag to Core-Lokt’s proven performance. Made by legendary Remington Ammunition.

A successful bear hunter must complete all information on the tag and attach it to the bear’s ear immediately after harvest, and before the carcass is moved. In addition, within 24 hours, each hunter who harvests a bear must have it checked by the Game Commission. Bear check stations, which are listed on the next page, are open on each day of the regular firearms bear season, and on select days of the extended seasons.

Hunters harvesting bears during the statewide archery, muzzleloader or special firearms bear seasons, or during any early season in WMUs 2B, 5B, 5C & 5D, should contact the appropriate Game Commission region office for instructions to have their bears checked. Bears should be field-dressed before being brought to a check station, as Game Commission personnel do not need to examine reproductive tracts. It’s also acceptable to bring only the tagged head and hide to the check station. Hunters should bring their hunting license and bear license. Hunters with bears to be checked after check stations close on Nov. 23, or Dec. 6-11 in WMUs 2B, 5B, 5C & 5D, should contact the appropriate region office. Once you have used your tag, it is unlawful to possess it in the field. If you purchase a bear license online, you cannot hunt for bear until the physical license is delivered to you with a harvest tag.

A general hunting license is required to hunt in any season. Bear hunters must have a bear license in addition to a general license. A bear license allows hunters to participate in the bear archery and bear muzzleloader seasons without needing an archery or muzzleloader license for these two particular seasons. Bear licenses are available to purchase from the time general hunting licenses go on sale through the Dec. 11 close of the last extended seasons.

It is unlawful to:
- Kill a bear in a den;
- Use a radio to locate a bear to which a radio transmitter has been attached;
- Hunt on areas where artificial or natural bait, hay, grain, fruit, nuts, salt, chemicals, minerals or other foods – including residue – are used, or have been used as an enticement to lure wildlife within the past 30 days;
- Use scents or lures;
- Hunt bears in a party of more than 25 persons.

Bear feeding is unlawful to “intentionally lay or place food, fruit, hay, grain, chemicals, salt or other minerals that may cause bears to congregate or habituate in an area.” In addition, if nuisance bears are being attracted to an area by any other wildlife feeding, game wardens can issue written notice to temporarily halt the activity.
Check stations statewide are open each day through the regular firearms bear season. Hours are:

- **Saturday, Nov. 20** – 10 a.m. to 8 p.m.
- **Sunday, Nov. 21** – 10 a.m. to 8 p.m.
- **Monday, Nov. 22** – 10 a.m. to 8 p.m.
- **Tuesday, Nov. 23** – 10 a.m. to 6 p.m.

  Saturday 11/27 & Sunday 11/28, Noon- 7 p.m.
  Saturday, 12/4, Noon- 7 p.m.

- **Huntingdon Nat’l Guard Armory, 10034 Raystown Rd., Huntingdon – 40.4885 N, 78.0480 W
  Saturday through Saturday 11/27-12/4, Noon- 7 p.m.

- **Beavertown Hose Company, 222 S. Sassafras Street, Beavertown – 40.7529 N, 77.166542 W
  Saturday 11/27 & Sunday 11/28, Noon- 7 p.m.
  Saturday, 12/4, Noon- 7 p.m.
Wild Pheasant Recovery Areas
There is no open season for the taking of pheasants in any Wild Pheasant Recovery Area (WPRA), except as authorized by executive order.

All other small game species can be hunted in WPRAs when in season. Dog training is now permitted in WPRAs. For WPRA boundaries, visit www.pgc.pa.gov.

No Closed Season, No Open Season
English sparrows and European starlings may be taken in unlimited numbers, but cannot be hunted during the regular firearms deer season. There is no open season for pine martens or sharp-tailed grouse.

Arms & Ammunition
1) Manually operated and semiautomatic 10-gauge or less shotguns with a capacity of no more than 3 shells in the chamber and magazine combined; 2) Manually operated and semiautomatic rifles and manually operated handguns 22-caliber rimfire or less; 3) Air-guns for small game in calibers from .177 to .22, for woodchucks at least 22-caliber, that propel a single-projectile or bullet. BB ammunition is prohibited. 4) Muzzle-loading rifles and handguns 40-caliber or less, and shotguns 10-gauge or less; and 5) Long, recurve and compound bows and arrows, and crossbows. Single-projectile ammunition, or fine shot pellets no larger than No. 4 lead, bismuth-tin, or tungsten-iron, or other approved non-toxic shot or No. 2 steel. There is no restriction on magazine capacity for semiautomatic rifles used to hunt small game.

Note: Rifle and handgun caliber restrictions (except air-guns) do not apply when hunting woodchucks.

Fluorescent Orange
Small game and porcupine hunters must wear at least 250 square inches of fluorescent orange at all times on the head, chest and back combined. Woodchuck hunters must wear a solid fluorescent orange cap on the head. Orange must be visible 360 degrees. No orange is required for crow hunters.

Pheasant Hunting

PHEASANT PERMIT REQUIRED
All adult hunters and some senior hunters who pursue pheasants in Pennsylvania are required to purchase a pheasant permit in addition to a general hunting license. The permit costs $26.97 and must be signed and carried while hunting pheasants. Senior lifetime resident hunting or senior lifetime resident combination license holders who acquired their licenses prior to May 13, 2017 are exempt from needing a pheasant permit. Junior hunters and mentored permit holders under 17 need a FREE permit.
**Junior Hunts**

**YOUNG HUNTERS HAVE EARLY CHANCES TO PURSUE SQUIRRELS, RABBITS AND PHEASANTS.**

The junior squirrel season runs from Sept. 11-25. The junior rabbit season runs Oct. 2-16. The junior pheasant season runs Oct. 9-16. Mentored Youth hunters under 17 may participate.

- **Junior hunters and mentored youth** must be accompanied by an adult as required by law.
- A hunting license is not required, but participants other than mentored hunters must have successfully completed a **Hunter-Trapper Education course**.
- Hunters must abide by the **same bag limits and regulations** as during the regular season.
- Resident and nonresident junior hunting license holders and mentored hunters under 17 now must obtain a **free** junior pheasant hunting permit to hunt pheasants.
- Junior pheasant hunt stocking locations are listed online at www.pgc.pa.gov, or can be obtained by contacting the appropriate Game Commission region office. Although pheasants may be hunted statewide (except in WPRAs) during the Junior Pheasant Hunt, birds will be stocked at specific locations. About 15,000 pheasants are stocked statewide before the junior pheasant hunt.

**HARMFUL ALGAL BLOOMS**

Harmful algal blooms (HABs) occur each year in Pennsylvania, often from mid-June through September, but also at other times of year if conditions are right.

They can be harmful to people, pets, fish, shellfish and other animals that come in contact with them or ingest the toxins they contain.

HABs can look like foam, scum, mats, or paint floating on or below the surface of water. They might look blue, green, brown, yellow, orange or red.

Exposure to HABs may cause a range of symptoms in people and animals. The duration, type, and severity of symptoms can vary depending on the duration and type of exposure, and the particular toxin involved.

Human symptoms of HAB exposure include rashes, eye and nose irritation, diarrhea, vomiting, or abdominal pain. If you exhibit any of these after exposure to a known or suspected HAB, call your doctor or a Poison Control Center at 800-222-1222.

Animal symptoms may include staggering, difficulty breathing, or vomiting. If your pet exhibits any of these symptoms, contact a veterinarian or ASPCA Animal Poison Control Center at 888-426-4435.

For more information on HABs, visit www.dep.gov/HABs.
License Requirements

A general hunting license or mentored permit is required. To hunt waterfowl, persons 16 and older are required to have a federal duck stamp, and it must be signed across the face and carried by the hunter. The Electronic Duck Stamp, or E-Stamp, is valid in Pennsylvania, and stamps can be purchased through “HuntFishPA.”

In addition, all hunters must have a Pennsylvania Migratory Game Bird License to hunt ducks, geese, doves, woodcock, brant, coots, gallinules, rails and snipe. Mentored hunters can purchase migratory game bird licenses and use them to hunt any migratory game bird species authorized for mentored hunting. This license may be obtained from any license issuing agent, or through https://huntfish.pa.gov.

To hunt light geese in the conservation season, hunters must purchase a conservation season permit and submit a mandatory report on their hunting activity and harvest. For more information, visit www.pgc.pa.gov, or call 717-787-4250.

Arms & Ammunition

1) Manual and semiautomatic shotguns no larger than 10-gauge with a capacity limited to no more than three shells in the chamber and magazine combined; 2) Long, recurve and compound bows and arrows; and crossbows. Only non-toxic fine shot up to and including size T (.20 inches) is lawful for waterfowl. It is unlawful to hunt waterfowl with lead shot.

Restrictions

NO PERSON SHALL TAKE MIGRATORY GAME BIRDS:

- With a shotgun capable of holding more than three shells, unless it is plugged with a one-piece filler that is incapable of removal without disassembling the gun.
- From a sink box (a low-floating device, having a depression affording the hunter a means of concealment beneath the surface of the water).
- From or with the aid of a car or other motor-driven land conveyance, or any aircraft.
- From or by means of any motorboat or sailboat unless the motor has been completely shut off and/or the sail furled, and its progress therefrom has ceased.
- By the use or aid of live decoys. By using records or tapes of migratory bird calls or sounds, or electrically amplified imitations of bird calls.
- By driving, rallying or chasing birds with any motorized conveyance or any sailboat to put them in range of hunters.
- By the aid of baiting (placing feed such as corn, wheat, salt or other feed to constitute a lure or enticement), or on or over any baited area. Hunters should be aware that a baited area is considered to be baited for 30 days after the removal of the bait.

Decoys

Electronic decoys can be used to hunt waterfowl, doves and crows.

Hunting Parties

Waterfowl and dove hunters can hunt in a party of more than six persons as long as they are hunting from a blind or stationary position.

Fluorescent Orange

Not required for waterfowl and dove hunters.
Seasons for **Ducks, Sea Ducks, Coots and Mergansers** run concurrently, but each of the state’s four zones has its own **opening and closing dates**. Waterfowl hunting is closed on Sundays.

**Ducks & Sea Ducks**  
6 daily, 18 in possession

The daily bag limit of six ducks or sea ducks is **combined** for any species with an open season, except for the following restrictions: Daily limit may not include more than:

- 2 mallards  
  **including 1 hen mallard**  
- 1 scaup (2 scaup at times)  
- 2 black ducks  
- 3 wood ducks  
- 2 redheads  
- 4 eiders

**Possession limits are triple the daily limits.**  
There is no open season for Harlequin Ducks

**Mergansers**  
5 daily, 15 in possession

**Not more than 2 hooded mergansers daily,**  
**6 hooded in possession.**

**Coots**  
15 daily, 45 in possession

**DUCK ZONE BOUNDARIES**

**Lake Erie Zone**  
Lake Erie, Presque Isle and the area within 150 yards of the Lake Erie shoreline.

**Northwest Zone**  
The area bounded on the north by the Lake Erie Zone and including all of Erie and Crawford counties and all of Mercer and Venango counties north of I-80.

**North Zone**  
The area east of the Northwest Zone and north of I-80 to Route 220, north from I-80 to I-180, north and east of I-180 from Route 220 to I-80, north of I-80 from I-180 to the Delaware River.

**South Zone**  
All of state not in the Lake Erie, Northwest and North Zones.
Canada Goose hunting is open statewide, but season lengths and bag limits vary by zone. Seasons for Canada geese include white-fronted geese. Waterfowl hunting is closed on Sundays.

**Southern James Bay Population Zone**
- Sept. 1-25*
  - 5 daily, 15 possession
- Oct. 23-Nov. 26
- Dec. 20-Feb. 12
  - 3 daily, 9 possession

*In western Crawford County, the season runs from Sept. 1-11

**Resident Population Zone**
- Sept. 1-25
  - 8 daily, 24 possession
- Oct. 23-Nov. 26
- Dec. 13-Jan. 15
- Feb. 4-Feb. 26
  - 5 daily, 15 possession

**Atlantic Population Zone**
- Sept. 1-25
  - 8 daily, 24 possession
- Nov. 23-26
- Dec. 24-Jan. 22
  - 1 daily, 3 possession

**Exceptions**

**September Season** Detailed maps of described areas available at www.pgc.pa.gov

1. In the area south of SR 198 from the Ohio state line to intersection of SR 18, SR 18 south to SR 618, SR 618 south to US Route 6, US Route 6 east to US Route 322/SR 18, US Route 322/SR 18 west to intersection of SR 3013, SR 3013 south to the Crawford/Mercer County line. The season is Sept. 1-11. The daily bag limit is 1, possession limit 3; except on SGL 214 where the season is closed to September goose hunting.

2. In the area of Lancaster and Lebanon counties north of the Pennsylvania Turnpike I-76, east of SR 501 to SR 419, south of SR 419 to Lebanon-Berks county line, west of Lebanon-Berks county line and the Lancaster-Berks county line to SR 1053 (also known as Peartown Road and Greenville Road), west of SR 1053 to Pennsylvania Turnpike I-76, the daily bag limit is 1, possession limit 3; except on SGL 46 (Middle Creek Wildlife Management Area) where the season is closed.

**Note:** The above exception area restrictions do not apply to youth participation on the September youth waterfowl day in the public hunting areas of SGL 214 and SGL 46. The Controlled Hunting Areas within the Wildlife Management Areas of SGL 214 and SGL 46 remain closed to September goose hunting. Hunting hours for all migratory birds, including Canada goose, close at sunset on youth waterfowl days.

**Regular Season**

Areas in the public hunting sections of SGL 46 (Middle Creek WMA) in Lebanon and Lancaster counties that are outside of the controlled goose hunting areas have a daily limit of one, and a possession limit of three during the regular Canada goose season. Areas inside of the controlled goose hunting areas of SGL 46 (Middle Creek WMA) have a season limit of one.
Light Geese (Snow Geese & Ross’ Geese)  

25 daily, no possession limit

**Southern James Bay Population Zone**

**Regular season**

Oct. 12-Feb. 12

**Conservation season**

Feb. 14-April 22

**Resident Population Zone**

**Regular season**

Oct. 26-Feb. 26

**Conservation season**

Feb. 28-April 22

**Atlantic Population Zone**

**Regular season**

Oct. 1-Jan. 29

**Conservation season**

Jan. 31-April 22

Webless Birds & Brant

**Brant**

2 daily, 6 possession  
Federal duck stamp needed

**Woodcock**

3 daily, 9 possession  
**Statewide**

Oct. 16-Nov. 26  
Dec. 13-22

**Gallinules**

3 daily, 9 possession  
**Statewide**

Sept. 1-Nov. 20

**Virginia & Sora Rails**

3 daily, 9 possession  
**Bag limit singly or combined**

**Statewide**

Sept. 1-Nov. 20

**Common Snipe**

8 daily, 24 possession  
**Statewide**

Oct. 16-Nov. 26  
Dec. 13-22

**Doves**

15 daily, 45 possession  
**Statewide**

Sept. 1-Nov. 26  
Dec. 16-Jan. 1

Except for crows, migratory bird hunting is closed on Sundays.

Youth, Veterans and Military Days

Licensed junior hunters ages 12-16, military veterans and active military personnel can hunt ducks, mergansers, Canada geese, coots and gallinules during selected days. Hunters 16 or older need a federal duck stamp to participate. Regular season bag limits and other restrictions apply. Check www.pgc.pa.gov for more details.

**Statewide**

Youth only – Sept. 25

**North Zone**

Youth, veterans and active military – Nov. 6  
Veterans and active military only – Jan. 15

**Northwest Zone**

Youth, veterans and active military – Dec. 18  
Veterans and active military only – Jan. 15

**Lake Erie Zone**

Youth, veterans and active military – Oct. 23  
Veterans and active military only – Jan. 15

**South Zone**

Youth, veterans and active military – Nov. 13  
Veterans and active military only – Jan. 29

Life Jackets Required by Law

**Nov. 1 to April 30**

All boaters, including waterfowl hunters, must wear life jackets on boats less than 16 feet in length, or on any canoe or kayak during the cold-weather period from Nov. 1 through April 30.

Recreational boating fatalities that occur in Pennsylvania from November through April are primarily caused by the effects of cold-water immersion.

When water temperatures are less than 70 degrees Fahrenheit, cold-water shock is a major factor in boating fatalities.

 Victims who wear a life jacket when exposed to cold water have potentially life-saving advantages, such as insulation from the cold, buoyancy for victims who are unable to tread water and reduced risk of aspiration of water.

In an effort to reduce the number of fatalities related to cold-water immersion, the Fish & Boat Commission has amended regulations to require life jackets to be worn on small and unstable boats during the period most noted for cold-water temperatures.

For other times of the year and on other types and sizes of boats, all boaters are required to have properly fitted personal flotation devices readily accessible. For more information on boating laws and safety, visit www.fishandboat.com.
Special Hunts, Interactive Map

Drawing for Special Hunts

Kelsi Messner, of Newmanstown, poses with the buck she harvested last year at Middle Creek Wildlife Management Area after she submitted an application and drew a permit to hunt there with her bow. “I saw deer every day I hunted, which made me eager to hit the stand the next day,” Kelsi said.

The Game Commission conducts several special hunts at the Pymatuning Wildlife Management Area in Crawford County and the Middle Creek Wildlife Management Area in Lebanon and Lancaster counties.

These consist of waterfowl, dove, archery deer and muzzleloader deer hunts at Middle Creek Wildlife Management Area, and goose, youth turkey, archery deer and muzzleloader deer hunts at Pymatuning Wildlife Management Area.

Permittees to hunt these areas are selected only by drawings held prior to the hunting season.

Individuals can apply for a hunt at no cost. Applications may only be submitted online and are not available at issuing agents.

For more information on these hunts and how to apply, please visit the Game Commission’s website www.pgc.pa.gov. Hunters are encouraged to frequently check the website for the most up to date information regarding the special hunt programs.

Mute Swans

Mute swans are non-native and not protected under state or federal law. Hunters may harvest mute swans and they do not count as part of the daily bag. Taking mute swans on private property requires landowner permission. Mute swans have an orange bill with a black fleshy knob on top at the feather line. Mute swans do not feed in fields and are encountered only in wetlands. Native tundra and trumpeter swans are protected. They have a black bill and commonly are found in fields and wetlands. Sandhill cranes are likely to be present in certain areas and are protected.

Mute Swans

Trumpeter Swan

Tundra Swan

Discover the PA Hunting Interactive Map

Visit www.hunting.pa.gov

The Pennsylvania Department of Conservation and Natural Resources and the Pennsylvania Game Commission have teamed up to create a new interactive map specifically for hunters. Collectively, state forest land and state game lands offer more than 3.7 million acres open to hunting in Pennsylvania.

Hunters can use this map to:

- View public lands open to hunting.
- Search hunting seasons and bag limits across different parts of the state.
- Display hunting hours (starting and ending times) across different parts of the state.
- Add personal GPS data to the map (GPS waypoints and tracklogs).
- View different types of wildlife habitat across public forest lands, including mature oak forests, meadows, food plots, openings, winter thermal (coniferous) cover and young aspen forest.
- See where recent timber harvests have occurred on public forest lands.
- Get Deer Management Assistance Program (DMAP) information for state forest land.
- Add map layers associated with Chronic Wasting Disease (CWD).
- Identify bear check station locations and get driving directions.
- Display and get information on the elk hunt zones.
- Add the locations of gated roads opened for hunters on public forest lands and when those gates will be opened.
- Analyze graphs and trends in antlerless/antlered deer harvests, and antlerless license allocations from 2004 to the present.

Report Banded Birds

Hunters can report bird bands online at www.reportband.gov. In addition to band numbers, information requested includes when, where and what species of waterfowl were killed. The age and sex of the bird and where it was banded will be provided to the hunter by email. Online reporting provides better data quality and lowers costs.

LANCASTERARCHERY.COM
A furtaker license is not required to hunt coyotes, but is required to trap them. Porcupines may be hunted with a hunting or furtaker license. A furtaker license is required to take any other furbearer by hunting or trapping. In addition to a furtaker license, permits are required for bobcat, fisher and otter.

Firearms While Trapping

- To dispatch trapped animals during deer season, trappers are limited to semiautomatic or manually operated 22-caliber rimfire or smaller rifles, manually operated 22-caliber or smaller rimfire handguns, or manually operated or semiautomatic air- or gas-operated rifles, manually operated handguns, that are 177- to 22-caliber. Persons under 12 may use a 22-caliber or smaller rimfire rifle, but only when accompanied by an adult.

Firearms for Hunting Furbearers

- It is unlawful to take furbearers, including bobcats, with shotguns using shot larger than size No. 4 buckshot, or implements that are not lawful firearms, bows or crossbows. Semiautomatic and manually operated rifles, manually operated handguns of any caliber, manual or semiautomatic shotguns and, bows and crossbows can be used. Muzzleloading rifles or handguns that propel single-projectile ammunition can be used. Air- or gas-operated firearms of at least 22-caliber and propel a single-projectile pellet or bullet can be used. Persons hunting coyotes, foxes, bobcats, raccoons, striped skunks, opossums and weasels may use gun-mounted lights that do not project a laser-light beam, as well as handheld and sporting-arm mounted night-vision and infrared (thermal) optics. Porcupines may not be hunted at night.

Dogs

Dogs are permitted to hunt furbearers.

Unlawful Devices

It is unlawful to take furbearers through the use of fish hooks, snagging hooks or any other hooks of similar design, or implements that are not lawful traps. A furtaker license is needed to trap all furbearers, including coyotes.

Foxes and coyotes many be hunted on all Sundays within their open seasons.

**Coyotes**
- No Limit
- No closed season, with certain exceptions during big-game seasons

**Raccoons & Foxes**
- No Limit
- Oct. 23-Feb. 19

**Opossums, Striped Skunks & Weasels**
- No Limit
- Oct. 23-Feb. 19

**Bobcats**
- 1 per license year
- Jan. 8-Feb. 2
- WMUs 2A, 2B, 2C, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E

**Porcupine**
- 3 daily, 10 season
- Oct. 9-Jan. 29

**Furtaking**

**Raccoons, Opossums, Striped Skunks & Weasels**
- No Limit
- Oct. 23-Feb. 19

**Minks & Muskrats**
- No Limit
- Nov. 20-Jan. 9

**Beavers**
- Limits vary by WMU
- Dec. 18-March 31

**Fishers**
- 1 per license year with permit
- Dec. 18-Jan. 2
- WMUs 1B, 2C, 2D, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E

**Bobcats**
- 1 per license year with permit
- Dec. 18-Jan. 2
- WMUs 1B, 2C, 2D, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E

**Beavers**
- Limits vary by WMU
- Dec. 18-March 31

**Fishers**
- 1 per license year with permit
- Dec. 18-Jan. 2
- WMUs 1B, 2C, 2D, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D & 4E

A furtaker license is not required to hunt coyotes, but is required to trap them. Porcupines may be hunted with a hunting or furtaker license. A furtaker license is required to take any other furbearer by hunting or trapping. In addition to a furtaker license, permits are required for bobcat, fisher and otter.
Setting Traps
It is unlawful to 1) stake or set traps prior to 7 a.m. on the first day; 2) set traps within 5 feet of a hole or den, except for underwater sets; 3) use pole traps, jaw-toothed traps, deadfalls, poison, explosives, chemicals, or traps with a jaw-spread exceeding 6½ inches as measured to the outside of the jaw; 4) set body-gripping traps outside a watercourse, waterway, marsh, pond or dam; 5) set a trap not marked with a durable identification tag attached to either the trap or chain showing the first and last name and address of the trapper, or a number issued by the Game Commission; 6) set a trap with bait visible from the air; 7) smoke or dig out a den or house or cut den trees; 8) disturb traps or remove any wildlife from the traps of another without specific permission; and 9) on the closing day, fail to remove traps by sunset.

Possession
It is unlawful to 1) possess green pelts (not dried, cured or tanned), except during open season and for 10 days thereafter; 2) possess live, wild furbearers, except foxes, for which a permit must be issued by the Game Commission; and 3) buy, sell or possess furbearers or parts unlawfully taken, transported, imported, exported or improperly tagged.

Foot-Encapsulating Trap
A device that has all triggering and restraining mechanisms enclosed by a housing that, once set, allows access to the triggering and restraining mechanisms through a single opening not to be closed by a housing that, once set, allows access to the trigger mechanism. Furtakers are permitted to trap furbearers using a baited enclosure constructed of natural or artificial material that is designed to house and corral a furbearer into a body-gripping trap. Cage and box traps can be used to take furbearers, however it is unlawful to 1) use a cage or box trap in water; and 2) use a cage or box trap capable of capturing more than one animal at a time.

Artificial Cubby
A baited enclosure constructed of natural or artificial material that is designed to house and corral a furbearer into a body-gripping trap. Furtakers are permitted to trap furbearers using body-gripping traps set in artificial cubbies when all of the following conditions are met: 1) The artificial cubby is placed within an established watercourse, waterway, marsh, pond or dam. 2) The entrance to the artificial cubby does not exceed 50 square inches. 3) Traps no larger than 6½ x 6½ inches can be used. 4) The triggering mechanism of the trap is recessed within the artificial cubby at least 7 inches from the entrance. 5) The artificial cubby is anchored in a manner that it cannot be moved or rolled. Note: Requirements 2 through 5 shall not apply to body-gripping traps that are 5½ inches or less and set in artificial cubbies to target mink or muskrat.

Cable Restraint Captures
Trappers eligible to use cable restraints for foxes and coyotes can keep non-target furbearers that are incidentally captured in a cable restraint if there is an open trapping season in which those furbearers are legal for harvest, and the trapper has license or permit for that furbearer.

Exporting Furs
It is unlawful to ship furs or harvested furbearers outside the state unless an official “Shipping Tag” is properly attached. Tags are available from Game Commission offices and licensed fur dealers.

Importing Furs
Furs and furbearers taken outside of Pennsylvania must be tagged according to laws of the state or country where harvested.

Traps & Trapping

Cable Restraints
A cable restraint is a highly specialized trapping device designed to restrain foxes and coyotes without injury. Cable restraints employ modern modifications, such as flexible multi-strand cable, relaxing locks, and breakaway stops and hooks to restrain animals in winter conditions where traditional trapping methods are less effective. Trappers use cable restraints to capture foxes and coyotes by suspending the loop within a pathway used by the species of interest. The loop is usually held in place by a piece of light wire. As the animal enters the device, its own forward progress draws the loop tight around the neck. The animal is then held alive until the trapper arrives to check the set. The legalization of cable restraints in Pennsylvania was based on data collected during one of the most ambitious trap research projects in the history of wildlife management—the development of Best Management Practices for Trapping (BMPs) in the United States. Trapping BMPs identify techniques, traps and cable restraints that maximize the welfare of trapped animals and allow for the efficient, selective, safe and practical capture of furbearers. Cable restraints have been field tested by experienced trappers during legal land trapping seasons throughout North America. Animals harvested during these studies were sent to wildlife veterinarians who used international guidelines to examine and evaluate them for capture-related injuries. The animal welfare performance of cable restraints was outstanding.

TRAPPERS MUST BECOME CERTIFIED TO USE CABLE RESTRAINTS

A cable restraint is a highly specialized trapping device designed to restrain foxes and coyotes without injury. Cable restraints employ modern modifications, such as flexible multi-strand cable, relaxing locks, and breakaway stops and hooks to restrain animals in winter conditions where traditional trapping methods are less effective. Trappers use cable restraints to capture foxes and coyotes by suspending the loop within a pathway used by the species of interest. The loop is usually held in place by a piece of light wire. As the animal enters the device, its own forward progress draws the loop tight around the neck. The animal is then held alive until the trapper arrives to check the set. The legalization of cable restraints in Pennsylvania was based on data collected during one of the most ambitious trap research projects in the history of wildlife management—the development of Best Management Practices for Trapping (BMPs) in the United States. Trapping BMPs identify techniques, traps and cable restraints that maximize the welfare of trapped animals and allow for the efficient, selective, safe and practical capture of furbearers. Cable restraints have been field tested by experienced trappers during legal land trapping seasons throughout North America. Animals harvested during these studies were sent to wildlife veterinarians who used international guidelines to examine and evaluate them for capture-related injuries. The animal welfare performance of cable restraints was outstanding.

Cage and Box Traps
Cage and box traps can be used to take furbearers, however it is unlawful to 1) use a cage or box trap in water; and 2) use a cage or box trap capable of capturing more than one animal at a time.
Cable Restraint Regulations

The use of cable restraints by certified trappers in Pennsylvania is highly regulated.

Cable restraints are permitted only for foxes and coyotes during late winter periods (Dec. 26-Feb. 20, 2022), when freezing conditions render traditional methods ineffective.

Everyone who traps in Pennsylvania must follow strict guidelines established and enforced by the Game Commission.

Regulations dictating the species that may be harvested, seasons, trap types and where traps can be placed are reviewed annually by Game Commission biologists and law-enforcement personnel. In addition to general trapping regulations, these specific regulations have been instituted for using cable restraints in Pennsylvania.

Cable restraints must be made of a galvanized stranded steel cable with a diameter of not less than 3/32 of an inch. The cable must be constructed of 7 bundles of 7 wires per bundle (7x7), 7 bundles of 19 wires per bundle (7x19), or 1 bundle comprised of 19 wires (1X19). The cable may not exceed 7 feet in length from the anchor point to the lock contacting the fully closed loop stop, must be equipped with at least one swivel device (which allows for 360-degree rotation) between the loop and the anchor, and must have stops affixed to the cable to ensure that the circumference of the cable that makes up the loop may not be greater than 38 inches when fully open, or less than 8 inches when fully closed. Cable restraint loops must be set so that the bottom of the loop is no less than 6 and no greater than 12 inches above the first surface beneath the cable restraint. Cable restraints must be equipped with an approved lock, and the lock may not be constructed with moving parts.

A cable restraint must include a breakaway device affixed between the lock and cable or at the end of the cable that is rated at 375 pounds or less. The cable must be maintained in good condition so that all components operate properly.

A cable restraint must be anchored to prevent the animal from moving the restraint from place of capture.

Cable restraint may not be set where entanglement may occur or where the animal may become suspended.

Trappers eligible to use cable restraints for foxes and coyotes can keep non-target furbearers that are incidentally captured in a cable restraint if there is an open trapping season in which those furbearers are legal for harvest, and the trapper has a license or permit for that furbearer. Bobcats may not be taken in cable restraints during the bobcat hunting season. Other wildlife mistakenly killed with cable restraints must be reported to any game warden in the county where the kill occurred. Call the appropriate region office to have a game warden respond.

To use cable restraints, trappers must first complete a certified cable restraint training course.

To view course schedules, visit www.pgc.pa.gov, or contact the Game Commission’s Hunter-Trapper Education Division at 717-787-7015.

Trappers shall keep the certificate from the training course in possession while setting or checking sets using cable restraints, and present the certificate upon the request of a game warden.

In addition to the certificate, those using cable restraints must possess a valid furtaker license, or qualify for license and fee exemptions under Section 2706 of the act relating to resident license and fee exemptions, or qualify for trapping exceptions under Section 2363 of the act relating to trapping exceptions for certain persons.

Approved Cable Restraint & Snare Locks Include:

- Reichart 180-Degree Reverse Bend Washer
- Kaatz “Relax-a-Lock”
- Berkshire 90-Degree Bend Washer
- Micro Lock
- BMI Slide Free Lock
- Penny Lock
Bobcats, Fishers, Beavers & Otters

Season length is used to regulate bobcat taking in specified WMUs in the state. Because fisher populations have increased dramatically in many areas of the state, the Game Commission has adopted a fisher trapping season in select WMUs. To assess interest, effort, and harvest success rates during these seasons, the Game Commission requires that hunters and trappers possess bobcat and/or fisher permits to pursue these species. All furtakers may purchase one permit for each species during the 2021-22 season, and successful permit holders must report their harvest.

Who Can Attempt to Harvest A Bobcat?
Licensed furtakers (hunters and trappers) who possess a valid bobcat permit can harvest one bobcat per license year in WMUs 2A, 2B, 2C, 2E, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D or 4E (combined) from Jan. 8-Feb. 2, 2022, by hunting only, or Dec. 18-Jan. 9, 2022, by trapping only, using lawful devices and methods.

Who Can Attempt to Harvest A Fisher?
Licensed furtakers who possess a valid fisher permit can harvest, by trapping, one fisher per license year in WMUs 1B, 2C, 2D, 2F, 2G, 2H, 3A, 3B, 3C, 3D, 4A, 4B, 4C, 4D or 4E (combined) from Dec. 18-Jan. 2, 2022 using lawful devices and methods during the trapping season.

If You Harvest a Bobcat or Fisher
A permitted person taking a bobcat or fisher shall, immediately before removing the animal from the harvest site, fully complete and attach to the animal the harvest tag furnished with the permit. The tag shall remain attached to the animal until it is mounted, tanned, made into a commercial fur or prepared for consumption. A CITES tag automatically will be issued for bobcats that may be exported or sold. A CITES tag is not required for a fisher pelt. Within 48 hours of harvesting a bobcat or fisher, a permit holder must report the harvest to the Game Commission through https://huntfish.pa.gov, or by calling 1-800-838-4431 or the nearest Game Commission region office, phone numbers for which are listed in the front of this digest.

Beavers & Otters

Beavers
Dec. 18-March 31, 2022

WMUs 1A & 1B
(Combined) 20 daily, 60 per season

WMUs 2A, 2B & 3C
(Combined) 20 daily, 40 per season

WMUs 2C, 2D, 2E, 2F, 3A, 3B, 3D, 5C & 5D
(Combined) 20 daily, 20 per season

WMUs 2G, 2H, 4A, 4B, 4C, 4D, 4E, 5A & 5B
(Combined), 5 daily, 5 per season

River Otters
Feb. 12-19, 2022

WMUs 1A, 1B, 2F, 3C & 3D
1 per year with permit

Bobcat, Fisher and Otter Permits
Bobcats, fishers and river otters can only be taken by furtakers holding valid permits.

Bobcat permits, fisher permits and otter permits are available through any license issuing agent and through “HuntFishPA” on the Game Commission’s website, www.pgc.pa.gov.

Furtakers may purchase one bobcat permit, one fisher permit and one otter permit per license year, and they may take no more than one animal with each permit.

Each permit costs $6.97.

Bobcat, fisher and otter permits must be purchased before the start of each respective season.

Bobcat and fisher permits must be purchased before Dec. 18.

Otter permits must be purchased before Feb. 12.

Beaver and Otter Regulations
In addition to general trapping regulations, it is unlawful to: 1) destroy, disturb or interfere with a beaver dam or house; 2) use other than raw, native wood and stone materials to direct the travel of beavers or otters (manmade materials may be used only to support traps or snares); 3) place, check, reset or tend a trap or snare on an established beaver dam or beaver house, or within 15 feet of either a dam or a house. Measurement shall be from directly above the trap or snare, across the water, ice or land to the nearest point of the structure; 4) check or maintain a beaver or otter trap, or remove a beaver or otter unless the person who owns the trap is present; 5) set body-gripping traps larger than 10 inches tall by 12 inches wide.

Special Otter Regulations
Licensed furtakers must purchase a river otter permit to participate in the season. Before removing an otter from the location where it was caught, successful permit holders must immediately complete and attach to the otter the carcass tag furnished with the permit, and report their harvest within 24 hours. For WMUs 3C or 3D, call the Northeast Region Office at 570-675-1143; for WMUs 1A, 1B or 2F, call the Northwest Region Office at 814-432-3187. The harvest tag must remain attached to the otter until a plastic Convention on the International Trade in Endangered Species (CITES) tag is attached, if applicable, or the animal is mounted, tanned, made into a commercial fur or prepared for consumption. For research purposes, the Game Commission may ask some successful otter trappers to surrender the carcass of their otter within 30 days.
Beavers & Otters

Trapping Device Limitations
The number of trapping devices allowed for beaver and otter trapping differs depending on furbearer species, WMU trapped, and beaver/otter season overlap.

Otter Trapping
- It is unlawful for otter trappers to set, tend or operate more than a combined total of five traps or snares, no more than two of which may be body-gripping traps.

Beaver Trapping During Otter Season
- Where beaver season overlaps with otter season by calendar date within WMUs 1A, 1B, 2F, 3C & 3D, and shall extend for five additional consecutive days after the close of otter season, it is unlawful for beaver trappers to set, tend or operate more than a combined total of five traps or snares, no more than two of which may be body-gripping traps.

Beaver Trapping
- Where no overlap of otter and beaver seasons occurs by both calendar date and WMU, it is unlawful for beaver trappers to set, tend or operate more than a combined statewide total of 20 traps or snares, no more than 10 of which may be traps. No more than two of the traps may be body-gripping traps, except in WMUs where beaver bag limits are 40 per season all 10 traps may be body-gripping traps. In WMUs where beaver bag limits are 60 per season, all 20 traps or snares may be body-gripping traps.

A legal snare for beaver and otter trapping must be looped galvanized stranded steel cable 3/32 inches in diameter, equipped with the approved locks required for cable restraints. A metal ferrule shall be crimped on the cable to prevent the snare loop from closing to a circumference less than 7 inches. It is unlawful to equip snares with a spring-activating mechanism or any device designed to aid in closing the snare loop. Snare must be set, tend or operate in water within a waterway, watercourse, marsh, pond or dam. There must be one durable identification tag attached to each trap or snare by means of an extension wire of sufficient length so that the name tag or identification number is completely above the water or ice level and totally visible. The tag must list the owner’s first and last name and legal home address, or a number issued by the Game Commission.

Avoiding Accidental Otter Captures
Trappers are urged to learn to identify otter sign and, where otters exist, to adopt the following recommendations to avoid the accidental capture of otters while trapping beavers:
- When using snares, set snare loops at 10 to 12 inches in diameter.
- Use baited sets for beavers where feasible.
- Avoid main channels in ponds and primary crossings where otter sign is present.

If an otter is captured accidentally, report it to the local game warden through the Game Commission region office.

Pennsylvania’s Big Game Scoring Program
Each year, deer, bear and elk that are among the largest ever to be harvested in Pennsylvania are added to the Pennsylvania Big Game Records book.

Now those hunters and trophy owners who have a listing in the record book also may purchase an Exclusive Member Big Game Records patch. Patches are $9.43, plus $2.95 shipping, plus sales tax. Funds from the sale of these patches are used to support the state’s Big Game Scoring Program.

To enter a big game animal, or for more information about the Game Commission’s Big Game Scoring Program, contact Boone & Crockett Club certified scorer and coordinator of Pennsylvania’s program Bob D’Angelo at rdangelo@pa.gov or call the Game Commission Harrisburg Headquarters.

To order, call 1-888-888-3459.
The 2021 records book becomes available in October, and costs $10, plus $2.95 shipping, plus 6 percent sales tax.

Pennsylvania Game Commission
Elk guides are an optional service available to licensed elk hunters. Elk guides are regulated by the Game Commission and the state Department of Conservation and Natural Resources and offer various services to the hunter.

**Fluorescent Orange Requirements**

Except during the archery season, elk hunters and those accompanying them must wear at least 250 square inches of fluorescent orange, visible 360 degrees, on the head, chest and back combined. Camouflage-fluorescent orange may satisfy this regulation if the total orange content is at least 250 square inches.

**Tagging, Reporting Requirements**

A successful hunter must attach the tag to the ear of an elk immediately after harvest and before the carcass is moved. In addition, within 24 hours, each hunter who harvests an elk must take it, along with his or her hunting license and elk license, to a Game Commission check station. Successful archery season elk hunters need to contact the Northcentral Region Office.

**Arms & Ammunition**

Manually operated centerfire rifles and handguns at least 26 caliber that propel single-projectile ammunition 120 grains or larger. Manually operated or semiautomatic centerfire shotguns at least 12-gauge firing a single projectile. Muzzleloading firearms at least 50 caliber propelling a single projectile weighing at least 210 grains. A bow with a minimum draw weight of 45 pounds. Any arrow, or crossbow bolt, with a broadhead that has a fixed or mechanical tip having sharpened cutting edges consisting of metal or naturally occurring stone. The broadhead must have an outside diameter or width of at least 1 inch, and the length may not exceed 3.25 inches. Crossbows must have a minimum peak draw weight of 125 pounds.

**Driving & Feeding Elk**

It is unlawful to drive or herd elk. It is unlawful to feed elk at any time of year.

**Elk Management Area map, Elk Hunt Zone descriptions and check station information** can be found on the Game Commission website at www.pgc.pa.gov.
Pennsylvania is home to the largest wild elk herd in the northeastern United States. As many as 1,400 elk freely roam across 3,000 square miles in the northcentral region of the state, mostly within Elk, Cameron, Clinton, Clearfield and Centre counties.
Those applying for elk licenses can select which zones they would like to hunt. Big bulls, as well as a huntable population of elk, can be found in each of the 14 zones. Below is a brief synopsis of the zones. Elk hunters are encouraged to spend some time in Pennsylvania’s elk country to become familiar with the area in advance of the hunting seasons.

<table>
<thead>
<tr>
<th>Zone Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Open to any licensed elk hunter; the zone contains good access throughout the area and holds a good population of elk. Excessive habitat work was recently completed on SGL 14 and the Elk State Forest contains managed openings, too. Some of the better areas may require walking several hundred feet of elevation gain, so it helps to be in good physical shape to hunt this zone. Due to the extensive amount of public land, this is a good area for all hunters.</td>
</tr>
<tr>
<td>2</td>
<td>Located on areas of State Game Lands (SGL) 311 and the Elk State Forest, both of which provide good hunting opportunities, this zone historically contains a large number of elk. There are also elk on privately-owned land in this zone, some of which is open to hunting. Due to the high elk population and good public access, this zone is a good choice for any hunter.</td>
</tr>
<tr>
<td>3</td>
<td>Located entirely on SGL 14 and the Elk State Forest, this zone also has a healthy population of elk. Extensive habitat work was recently completed on SGL 14 and the Elk State Forest contains managed openings, too. Some of the better areas may require walking a few miles, including several hundred feet of elevation gain, so it helps to be in good physical shape to hunt this area. Due to the extensive amount of public land, this is a good area for all hunters.</td>
</tr>
<tr>
<td>4</td>
<td>Located on a mix of public and private land, with one large private land holding open to public hunting, this zone contains good access throughout the area and holds a good population of elk. Access to some of the private farms may increase hunter success, but huntable populations of elk can be found on accessible public and private land.</td>
</tr>
<tr>
<td>5</td>
<td>Located on a mix of public and private land, the elk population in this zone is fair and there are high human/elk conflicts, especially in and around Weedville. The elk tend to be nomadic in this area and most of the successful hunters have harvested elk on private land. A great deal of preseason scouting, local knowledge, and/or the use of an outfitter is advised for this zone.</td>
</tr>
<tr>
<td>6</td>
<td>Located on a mix of public and private land, this zone has a good population of elk that mostly reside along the Bennett Branch of the Sinnemahoning Creek. Since this area is largely private, a great deal of preseason scouting, local knowledge, and/or the use of an outfitter is advised.</td>
</tr>
<tr>
<td>7</td>
<td>Closed to elk hunting.</td>
</tr>
<tr>
<td>8</td>
<td>Located on a mix of public and private land, this zone has a good population of elk which tend to live on the private lands along the Bennett Branch, as well as on SGL 311 and the Elk State Forest, in the northwest corner of the zone. There are enough elk on public land that a self-guided hunter could be successful, but a great deal of preseason scouting, local knowledge, and/or the use of an outfitter is advised for this zone.</td>
</tr>
<tr>
<td>9</td>
<td>Located on a mix of public and private land, this zone is small and most of the elk have been harvested on private farms along the stream bottom. This is not a remote hunt, as cabins and homes are prevalent in this zone. It can be a frustrating hunt, as elk tend to move in and out of the zone. Since most elk are harvested on private land, a great deal of preseason scouting, local knowledge, and/or the use of an outfitter is advised for this zone.</td>
</tr>
<tr>
<td>10</td>
<td>Located on a great deal of public land, this zone is large and contains a good population of elk. Elk can be found across the Quehanna Plateau, along the First Fork and the Main Branch of the Sinnemahoning Creek. There is plenty of public land that holds elk and some of the better areas require a few miles of walking, so it helps to be in good physical shape to hunt this zone. Due to the extensive amount of public land, this is a good area for all hunters.</td>
</tr>
<tr>
<td>11</td>
<td>Located on a mix of public and private land, the elk population in this zone is fair. The elk tend to be nomadic in this area and most of the successful hunters harvested them on private land. Because of this, a great deal of preseason scouting, local knowledge, and/or the use of an outfitter is advised for this zone.</td>
</tr>
<tr>
<td>12</td>
<td>Located on a mix of public and private land, including areas of SGL 321, SGL 100 and the Moshannon State Forest, there is a high population of elk in this zone with good hunting opportunities. There are also elk on private lands, so a great deal of preseason scouting, local knowledge, and/or the use of an outfitter is advised for this zone. This is a good area for all hunters.</td>
</tr>
<tr>
<td>13</td>
<td>Located on a mix of public and private land, the elk population is growing and they can be found on SGL 100 and the Sprout State Forest. Extensive habitat work was recently completed on SGL 100. Some of the better areas require a few miles of walking, so it helps to be in good physical shape to hunt this zone. Due to the extensive amount of public land, this is a good area for all hunters.</td>
</tr>
<tr>
<td>14</td>
<td>Located on a mix of public and private land, the elk population is growing and the elk mostly occur in the Kettle Creek Valley. Due to the high elk population and good access to public land, this zone is a good choice for any hunter.</td>
</tr>

The Game Commission has been working with private landowners to increase wildlife populations, hunting territory and improve habitat on private lands for more than 80 years. The Hunter Access Program has evolved into a statewide cooperative with more than 13,000 private land parcels enrolled.

Landowners are required to provide reasonable access for hunting and trapping and retain the right to regulate hunter and season access. In exchange for access, cooperating landowners receive benefits including: increased law enforcement presence; free seedlings for wildlife food and habitat; free habitat management plans and improvement; free Game News; and liability protection through the Recreational Use of Land and Water Act.

Learn more about the Hunter Access Program and use the Game Commission Mapping Center to find a local cooperator — www.pgc.pa.gov

Pennsylvania Game Commission
Reporting a Violation

If you have witnessed activity you suspect violates the law, immediately note as many details as possible. The more information you provide, the faster a violator can be caught and prosecuted. Transmit this information as quickly as possible to the Game Commission region office serving your area. A list of counties comprising each Game Commission region, as well as telephone numbers and addresses of the region offices is in the front of this digest.

Here are some tips:

• Gather as much information as possible about the subject.
• Get an accurate physical description and any other pertinent information. Try to secure names and addresses of other witnesses, and any information they may have about the violation or suspect.
• What type of violation was it, and when, where and what time did it occur?
• What wildlife was involved (species, how many and where are they now)?
• Describe the suspect’s vehicle: license number, make, year, color and any other distinguishing features such as dented fenders or other noticeable damage.
• Note other physical evidence, such as hides, entrails, firearms, cartridge cases, etc. Note type and make of firearms involved. Do you know if the illegal game will be moved soon — when and where?

You can help stop wildlife crimes

Have you witnessed a wildlife crime involving deer, turkey, bear or elk, or a species that is protected, endangered or threatened? Call Operation Game Thief’s toll-free hotline — 24 hours a day, seven days a week, 365 days a year — to report wildlife violations, or fill out an Operation Game Thief Reporting Form online.

Calls phoned in to Operation Game Thief at 1-888-PGC-8001 always are answered by a secure recording device. Although it is beneficial to provide your contact information in case officers have follow-up questions, callers may remain confidential. However, some tips that lead to convictions might qualify for monetary rewards, and callers must provide contact information in order to claim them.

Wildlife crimes affect us all. Be a conservation hero, report wildlife crimes involving big game, or threatened, endangered or protected species to Operation Game Thief. Other violations should be reported to the region office serving that county.

POACHERS ARE THIEVES

HELP US CATCH THEM!
HUNTERS SHARING THE HARVEST® PENNSYLVANIA’S VENISON DONATION PROGRAM

HSH coordinates the distribution of donated venison to a statewide network of meat processors and food banks. When you donate your average sized deer you will help provide 200 meals to feed hungry people in Pennsylvania. Monetary donations go directly toward the cost of processing meat and storage. FOR MORE INFORMATION please call (866) 474-2141 or visit www.sharedeer.org.

Join the Pennsylvania Game Commission in supporting this meaningful program that gives back to neighbors in need. Whether you donate venison or send a monetary donation, you are giving back and assisting fellow Pennsylvanians.

IN 2020, HSH SET A NEW ALL-TIME PA RECORD @ 187,528 POUNDS OF VENISON

PLEAS GIVE A BUCK TO THE POT

Hunters Sharing the Harvest
Randy Ferguson, Executive Director
218 Vernon Rd.
Greenville, PA 16125

eMail: info@sharedeer.org
Toll Free: 1-866-474-2141
HuntFishPA, provides hunters and trappers an easy online option to purchase licenses and permits, report harvests, view antlerless deer license availability, check CWD test results and much more. Customers who purchase a Pennsylvania hunting, furtaker or fishing license are issued a unique Customer Identification number (CID), which can be used to access and navigate HuntFishPA. Here are some other tips to get started.

**LOOK UP ACCOUNT**

Returning license buyers can click the "Account Look Up" button in upper right corner of the HuntFishPA homepage to get started. A combination of CID, Social Security number, date of birth, driver’s license or state ID number or passport information can be entered to access your license profile to make a purchase. Those purchasing licenses online need to provide an email address and their receipt and license documents will be emailed to them.

**CREATE NEW ACCOUNT**

Those buying their first hunting, furtaker or fishing licenses can click “Create New Account” above the sign-in button and follow the prompts. If you have an account but forgot your password, click “Forgot Password” to reset your password.

All license buyers may report harvests, check on the status of an antlerless deer license application, view lottery drawing award for elk licenses or goose blinds, and reprint any lost license that does not include harvest tags.

**ONLINE LICENSE PURCHASES**

When buying online, hunters can print their general licenses to use for small-game hunting, as well as their archery and muzzleloader licenses and other privileges, and use them immediately. Licenses without harvest tags also may be stored electronically and carried on a device. Harvest tags may not be printed at home, and durable-stock paper harvest tags must be carried afield when hunting in a season where game taken must be tagged.

When a general license is purchased online, antlered deer and fall and spring turkey harvest tags are mailed to the hunter within 7-10 business days. Bear licenses, Special Spring Turkey licenses, and bobcat, fisher and otter permits also include harvest tags that are mailed when purchased online. Federal Duck Stamps purchased online are mailed within 45 business days, but hunters can print a temporary electronic duck stamp (eDuck) immediately. The eDuck stamp can be reprinted at no extra cost up to 45 days from purchase (online purchases only).

**HARVEST REPORTING MADE EASY**

HuntFishPA allows deer, bear, turkey, bobcat and fisher harvests to be reported online by clicking “Report A Harvest.” Farmers or landowners authorized to take deer without a tag should click on “Report Non-Tag Harvest.”

Those making reports must enter their CID or other identifying information. In reporting a harvest, a hunter with multiple tags should be careful to select the same one that was used to tag the animal. Hunters may also report by phone at 1-800-838-4431.

**OTHER NEW FEATURES**

- Enhanced user experience with a clean, modern design
- Streamlined content and screen flow to enable fast, easy-to-process transactions
- Customer account and dashboard displays specific information for each customer, including past license purchases and items eligible for purchase
- Related add-on items automatically recommended at purchase
- Merchandise sales are made through the system
- 24/7 phone customer service support is available for users
- Agent locator to identify nearby walk-in retail locations

**AUTOMATED REVOCATION**

Another feature of the electronic license sales system is that persons who have had their hunting and furtaking license privileges revoked are automatically prohibited from buying a license.

License revocation can occur for the following reasons: failure to respond to a citation issued for a violation of the Game and Wildlife Code; failure to pay fines assessed by a court within 180 days of adjudication of the charges; revocation ordered by the court for Game and Wildlife Code violations; failure to pay child support or for other lawful purposes; revocation ordered by the Game Commission for certain Game and Wildlife Code violations; revocation mandated by the Game and Wildlife Code; and failure to complete a remedial HTE course, if mandated.

Anyone who may be affected by one or more of these situations may contact the Game Commission’s Bureau of Wildlife Protection at 717-787-4024 to verify the status of his or her hunting privileges.
License Information

License Required
A current hunting license is required and must be in possession to hunt, take or kill any wildlife in Pennsylvania not classified as a furbearer. A current furtaker license is required to hunt, trap, take or kill any furbearer (coyotes and porcupines are the exceptions). A license is valid July 1 to the following June 30.

Proof of Residency
Proof of Pennsylvania residency must be shown to obtain a resident hunting or furtaker license. Persons must be domiciled in Pennsylvania at least 30 consecutive days prior to application. Valid Pennsylvania driver’s license, certain Pennsylvania and local tax receipts, and other positive means indicating residency may be used.

Validity of Licenses
Only one hunting or furtaker license shall be valid during any license year. Any replacement license, or purchase of a second or subsequent license shall immediately invalidate any license of the same kind that had been previously issued.

Uncollectible Checks
If a check issued in payment of any fee or fine is returned uncollectible, the person who makes, issues or presents it will be charged a $25 fee, in addition to any costs of prosecution or penalties assessed. Any license, permit or privilege granted by an uncollectible check shall be invalid until all applicable fees are paid.

License Transfers
Hunting and furtaker licenses are nontransferable and non-refundable. It is unlawful to possess another’s hunting license or big game tags.

Training Certificate — Hunting
Persons who have not held a hunting license issued in Pennsylvania or another state or nation, or do not possess a training certificate, are required to attain certification in an accredited hunter-trapper education program before applying for a hunting license. These provisions do not apply to a person presenting 1) evidence of service in the U.S. Armed Forces, including the Coast Guard and discharge or separation under honorable conditions within six months of application, or 2) evidence that the person is currently serving in the U.S. Armed Forces.

Training Certificate — Trapping
Persons applying for a furtaker license must present to the issuing agent one of the following: 1) evidence that the applicant has held a trapping or furtaker license issued in Pennsylvania or another state or nation; 2) a certificate of training; 3) an affidavit that applicant completed a voluntary trapping course sanctioned by the Game Commission, or 4) the applicant has previously hunted or trapped furbearers within the last five years. These provisions do not apply to persons under 12 who trap furbearers under direct supervision of a licensed adult furtaker at least 18 years old.

Identification Required When Hunting
While afield, hunters and trappers are required to carry their appropriate licenses as well as cards or papers, which must be shown to a game warden or landowner upon request, to confirm identification and residency.

Replacement Training Certificate
Information about obtaining a replacement Hunter Education Training Certificate, can be found online at www.pgc.pa.gov or www.ilostrmycard.com.

Unlicensed Persons
An unlicensed person may accompany a properly licensed hunter or trapper provided that the unlicensed person acts as only an observer and does not, in any manner, participate in hunting or trapping. Any unlicensed person accompanying a licensed hunter must wear the required amount of fluorescent orange. A person who has never held a hunting license in Pennsylvania or any other state must remain in sight of and close to the hunter, who must be at least 18 years of age. An unlicensed person may not possess a firearm, bow, or other hunting device. An unlicensed person who accompanies any hunting party shall be counted as a member of the hunting party for maximum allowed members. The ratio of licensed hunters to non-licensed persons must not exceed 1:1.

Purchasing Licenses Online
Individuals may apply for most licenses online, with the exceptions of antlerless deer licenses and military licenses. Click on “Buy a License” at www.pgc.pa.gov to access HuntFishPA. All harvest tag panels are mailed to those who purchase their licenses online, and these must be possessed afield when hunting in a season where tagging game is required. When licenses and permits without tags are purchased online, buyers can opt to have the licenses mailed to them, print them at home or receive digital versions to carry on a device. Harvest tags are mailed with a Hunting & Trapping Digest, antlerless license applications and two antlerless deer application envelopes (additional envelopes are available at any issuing agent).

Digital License
HuntFishPA provides the option for hunters and trappers to carry afield electronic versions of licenses they buy, as an alternative to carrying certain paper licenses. Harvest tags will continue to be issued in physical form on durable stock, and harvest tags need to be carried afield when hunting in big-game seasons or trapping in seasons where harvest tags are used. Hunters and trappers buying licenses online will continue to be mailed all durable-stock license panels, including harvest tags, and will also be given access to eLicenses. Those buying licenses from an issuing agent will be issued harvest tags at the time of purchase and will have the opportunity to have digital licenses provided through email. No signature is required on digital licenses. The license buyer attests to a statement, which serves in place of a signature.

Junior Licenses and Hunters
Persons under 17 years of age must have their parent or legal guardian’s approval to purchase a general hunting, combination or furtaker license. Junior hunters who wish to hunt in the archery and/or muzzleloader seasons, must purchase a combination license. These add-on licenses may not be added to a general junior hunting license. Eleven-year-olds who have successfully completed a required Hunter-Trapper Education course may apply for a Junior License if they will be 12 years old by June 30 of the license year. They may not lawfully hunt with the license prior to their 12th birthday. Persons 12 and 13 must be accompanied by an adult member of the family (at least 18), or by an adult serving in place of a parent. Persons 14 and 15 must be accompanied by any adult 18 or older. Sixteen-year-olds may hunt alone. Persons who turn 17 after purchasing a junior license may still hunt that year with the Junior License. It is unlawful while accompanying junior hunters under 16 to be out of sight of or unable to physically or verbally control the junior hunter or fail to comply with the fluorescent orange requirements. Verbal instructions given through the use of an electronic or other sound amplification device does not meet this requirement.
Senior Lifetime License Holders
Lifetime licenses must be renewed each year. If you have not purchased or renewed your Senior Lifetime License through "HuntFishPA," you will need to provide your SSN when applying. This is a one-time only requirement, and will not be needed again unless you do not have or cannot remember your CID. All Senior Lifetime and Senior Lifetime Combination License holders who purchased prior to May 13, 2017 are exempt from the Pheasant Permit. "Pheasant Eligible" will be located on the bottom panel of the license if a hunter does not have to purchase a pheasant permit. You will need to provide proof of residency when renewing your license, usually through a valid Pennsylvanian driver’s license.

Resident Landowner Hunting License
An eligible landowner who owns 80 or more contiguous acres open to public hunting in a Cooperative Hunter Access Program, or a designated immediate family member living in the same household, is entitled to a Landowner hunting license. Applicants must have their PGC Cooperative Hunter Access Program agreement number when applying.

Landowner Antlerless Deer License
An eligible landowner who owns 50 or more contiguous acres within a county is entitled to one antlerless deer license for the WMU where the land is located at the prescribed fee ($6.97 for residents, $26.97 for nonresidents). If the qualifying acreage is located within a county with two or more WMUs, the applicant selects the WMU he or she desires. A landowner must keep his or her property open to public hunting and trapping year-round to qualify. These licenses are allocated in advance of the regular licenses. The Landowner Antlerless Deer License Application/Affidavit is available from county treasurers, PGC offices, and online. Applicants must apply directly to the county treasurer of the county where the acreage is located. Landowners must apply for these licenses prior to the start of the regular application period, which begins on the second Monday in July.

Resident Military Personnel License
To qualify for a general hunting license for $2.97, applicants must meet all of the following requirements: 1) be a resident of Pennsylvania; 2) be on active and full-time duty in the U.S. Armed Forces, including the U.S. Coast Guard; 3) be currently assigned to a facility outside Pennsylvania; and 4) be on temporary leave in Pennsylvania.

Resident National Guard/Reserves
Reduced fee $2.97 general hunting licenses are available to residents serving in the Pennsylvania National Guard and the Reserves who, within the previous 24 months, were deployed overseas for a period of 60 consecutive days or more, or were released early from such service because of an injury or disease incurred in the line of duty. Only one reduced-fee license may be issued for each qualifying deployment.

Resident Prisoners of War
Reduced fee $2.97 general hunting licenses also are available to residents who are former Prisoners of War, certified to have been imprisoned by enemy forces while in the service of the U.S. Armed Forces.

Required Armed Services Personnel Documentation
Residents applying for any of the Armed Services licenses must provide official documentation, from the branch in which they serve, to prove eligibility in the form of orders, leave documents, military ID, and in the case of POWs, a DD214. All of these licenses, except for the POWs (county treasurers and PGC offices sell POWs), are available from any issuing agent. If the applicant cannot apply in person, he or she may submit to the Game Commission office or county treasurer a written request, including full name, legal address, telephone number, date of birth, height, eye color and documentation verifying Pennsylvania residency and military orders and, for the POW license, a copy of DD214 stating Prisoner of War status. Applicant must include a self-addressed, stamped, return envelope with the request.

Disabled War Veterans
Resident disabled war veterans with service-incurred 100 percent disability, or the loss of use of one or more limbs, may qualify for free hunting and furtaker licenses. Resident disabled war veterans with a service-incurred disability rating between 60 percent and 99 percent may qualify for a reduced fee $2.97 hunting and furtaker license. Applicants must provide documentation from the Veterans Administration. Call your county treasurer.

Migratory Game Bird Licenses
All persons are required to have a Migratory Game Bird License to hunt waterfowl and migratory birds including doves, woodcock, brant, coots, gallinules, rails and snipe. Unless issued as a digital license, the license must be signed in ink and carried by the hunter.

Federal Duck Stamp
All persons 16 and older are required to have a federal duck stamp to hunt waterfowl. It must be signed in ink across the face and carried by the hunter. It is not necessary to display the stamp. These stamps can be purchased online or in person and must be applied to your license, the license must be signed in ink and carried by the hunter.

Bear Licenses
Hunters may purchase this license online or over-the-counter at any issuing agent from the start of the license sales (approximately mid-June) through the end of bear season.

Special Second Spring Gobbler License
Hunters may purchase this license online or over-the-counter at any issuing agent from the start of the license sales (approximately mid-June) until the day before (April 29) the spring gobbler season.

Replacement Licenses
If a hunting or furtaker license has been lost or destroyed, a replacement license may be purchased for $6.97, per privilege, over-the-counter at any issuing agent or online at www.pgc.pa.gov by clicking on “Buy a License.” A lost or destroyed antlerless license can only be replaced through a county treasurer. County treasurers can issue replacement antlerless deer licenses for any WMU.

Elk License Application
Hunters may apply to enter the drawings for an elk license one time per license year, either online or at an issuing agent. The elk application can be purchased from the start of the license sales (approximately mid-June) until the application deadline. Refer to the “Elk Section” in this digest for detailed information.
# License Availability

The following licenses, permits and special-draw applications are available from all issuing agents including county treasurers, Game Commission offices and online.

## Licenses
- Resident Mentored Youth (Ages under 7, No Tags) ........ $2.97
- Resident Mentored Youth (Ages under 12) .............. $2.97
- Resident Mentored Youth (Ages 12 or older but under 17) $6.97
- Resident Junior Hunting (Ages 12 through 16) .......... $6.97
- Resident Junior Furtaker (Ages 12 through 16) ........ $6.97
- Resident Junior Combination (Ages 12 through 16) ...... $9.97
- Resident Landowner Hunting (Ages 12 & older) ........ $4.97
- Resident Adult Hunting (Ages 17 and older) ............ $20.97
- Resident Adult Furtaker (Ages 17 and older) .......... $20.97
- Resident Senior Hunting (Ages 65 & older) ............ $13.97
- Resident Senior Lifetime Hunting (Ages 65 & older) ... $51.97
- Nonresident Mentored Youth (Ages under 12) ......... $2.97
- Nonresident Mentored Youth (Ages under 7, No Tags) $2.97
- Nonresident Mentored Youth (Ages under 12) ......... $2.97
- Nonresident Adult Hunting (Ages 17 & older) ......... $101.97
- Nonresident Junior Hunting (Ages 12 through 16) ...... $41.97
- Nonresident Junior Combination (Ages 12 through 16) $51.97
- Nonresident Adult Furtaker (Ages 17 & older) ......... $81.97
- Nonresident Junior Furtaker (Ages 12 through 16) ...... $41.97
- Nonresident 7-Day Small Game * ....................... $31.97
- Nonresident 7-Day Deer License ................. $33.97
- Nonresident 7-Day Antlerless Deer License ............ $26.97
- Nonresident Antlerless Deer License ....................... $6.97
- Nonresident Landowner Antlerless Deer License ....... $6.97
- Nonresident Armed Forces Antlerless License ......... $6.97
- Nonresident Landowner Antlerless Deer License ....... $26.97
- Nonresident 7-Day Bear License ....................... $101.97
- Nonresident Reduced Disabled Veteran Animal License * Free
- Nonresident Reduced Disabled Veteran Furtaker License * Free
- Nonresident Armed Forces Antlerless License ......... $6.97
- Nonresident Landowner Antlerless Deer License ....... $26.97
- Nonresident 7-Day Bear License ....................... $101.97
- Nonresident Reduced Disabled Veteran Animal License * Free
- Nonresident Reduced Disabled Veteran Furtaker License * Free

## Add-on Licenses
- Resident Archery ........................................ $16.97
- Nonresident Archery .................................. $26.97
- Resident Muzzleloader * ............................. $11.97
- Nonresident Muzzleloader * ......................... $21.97
- Resident Migratory Game Bird License ............... $3.97
- Federal Duck Stamp .................................. $28.97
- Nonresident Migratory Game Bird License ......... $6.97
- Resident Bear License ................................ $16.97
- Nonresident Bear License ....................... $36.97
- Resident Special Spring Turkey License .............. $21.97
- Nonresident Special Spring Turkey License ....... $41.97
- Resident DMAP Harvest Permits .................... $10.97
- Nonresident DMAP Harvest Permits ............... $35.97
- Elk License Drawings (See elk section in this Digest) $11.97
- Bobcat Permit (See bobcat section in this Digest) $6.97
- Fisher Permit (See fisher section in this Digest) .... $6.97
- River Otter Permit (See otter section in this Digest) $6.97
- Adult Pheasant Permit ................................. $26.97
- Junior Pheasant Permit ............................... FREE
- Shooting Range Permit (See PGC website for more info) $31.97
- Snow Goose Permit ................................. $1.97
- Add-on Licenses ........................................ $1.97

## Sold Only by County Treasurers
- Resident Antlerless Deer License ....................... $6.97
- Resident Landowner Antlerless Deer .................... $6.97
- Resident Disabled Veteran Antlerless License ......... $6.97
- Nonresident Antlerless License ......................... $26.97
- Nonresident Landowner Antlerless Deer ............... $26.97
- Resident Disabled Veteran Lifetime Hunting License (if qualified) ................ Free
- Nonresident Mentored Youth (Ages 12 or older) .... $41.97
- Nonresident Mentored Youth (Ages under 7, No Tags) $2.97
- Nonresident Junior Combination (Ages 12 through 16) $9.97
- Nonresident Senior Lifetime Hunting (Ages 65 & older) $51.97

## Sold by County Treasurers & Game Commission Offices
- Resident Disabled Veteran Hunting License ........ $2.97
- Resident Reduced Disabled Veteran Furtaker License ........ $2.97
- Resident Disabled Veteran Annual Hunting License * Free
- Resident Disabled Veteran Annual Furtaker License * Free

- Resident Disabled Lifetime hunting and furtaker licenses can be renewed at any issuing agent, or online.
- All combination licenses include hunting, furtaker, archery and muzzleloader privileges. (Bear hunting privileges, antlerless deer license, migratory game bird license and federal duck stamp not included.)
- Senior resident hunting and furtaker (annual and lifetime, including combination) licenses are available to those who will be 65 years old by June 30 of the current license year.
- Nonresident of Pennsylvania – 12 years of age and older.
- Senior resident hunting and furtaker (annual and lifetime, including combination) licenses are available to those who will be 65 years old by June 30 of the current license year.
- Nonresident of Pennsylvania – 12 years of age and older.
- Seven consecutive days and licenses include waterfowl and pheasants, but not valid for coyotes or big game, including turkey. All junior, adult and senior hunters need to hold a Pheasant Hunting Permit to hunt pheasants. To hunt waterfowl, applicants 16 years of age and older need a federal duck stamp and applicants 12 and older need a Migratory Game Bird License.
- Muzzleloader firearms, bows and arrows, and crossbows may be used during the firearms deer hunting seasons without purchasing muzzleloader or archery licenses.

## Firearms Regulations for Non-Immigrant Aliens
Since the events of Sept. 11, 2001, the U.S. Bureau of Alcohol, Tobacco and Firearms has enacted new permit requirements for bringing firearms and ammunition across the U.S. border. Any resident of another country who intends to import a firearm and ammunition into the U.S. for the purpose of hunting or recreational target shooting should contact the ATF’s Firearms and Explosives Import Branch. Provide yourself ample time for the processing of the import permit application. It could take six weeks or more to receive the required permit. The ATF can be contacted at 304-616-4550. Visit the ATF website at http://www.atf.gov. An application for the Permit for Importation of Firearms can be found at ATF F6 NIA (5330.3D).
**Chronic Wasting Disease (CWD)** has been detected in Pennsylvania in captive and free-ranging deer.

### What is chronic wasting disease?

Chronic wasting disease (CWD) is a fatal brain disease that affects members of the cervid, or deer, family. CWD belongs to a family of diseases known as transmissible spongiform encephalopathies (TSEs). Other diseases in this family include bovine spongiform encephalopathy (mad cow disease) in cattle and scrapie in sheep. CWD first was detected in Colorado in 1967 and has spread to 26 states and four Canadian provinces.

### What causes CWD?

TSE diseases, including CWD, are believed to be caused by misfolded proteins called prions. Prions concentrate in the central nervous system causing tiny holes to form in the brain and eventually leading to death. Prions are hearty proteins found to withstand freezing and thawing, and extreme heat.

### How does CWD spread?

CWD can be spread directly through deer-to-deer contact or indirectly through contact with a prion-contaminated environment. Prions are shed onto the environment through saliva, urine, and feces. Studies show that, once in the environment, prions can remain infectious for several years.

### Where has CWD been detected in North America?

CWD has been detected in captive and free-ranging cervids in the following states or provinces: Alberta, Arkansas, Colorado, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Mexico, New York, North Dakota, Ohio, Oklahoma, Ontario, Pennsylvania, Quebec, Saskatchewan, South Dakota, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin, and Wyoming. For an updated map on CWD-positive locations in North America, please visit www.usgs.gov and search “CWD.”

### Why is CWD a threat?

CWD is a threat to healthy deer populations, deer hunting, and wildlife conservation in Pennsylvania.

CWD is always fatal to deer that become infected. With no cure or vaccine, options are limited to manage the disease.

Research shows CWD-infected deer are more likely to die annually than uninfected deer, and as a result, CWD can decrease deer populations over time, which could result in reduced hunting opportunities. Surveys conducted by the Game Commission have found that over 20 percent of hunters in Pennsylvania would have a decreased interest in deer hunting if a CWD-positive deer was found in the area they hunt.

The potential economic losses resulting from a decline in hunting participation in Pennsylvania, attributed to decreased sales of licenses or hunting gear, would reduce funding for not just the Game Commission’s wildlife-management activities, but for wildlife conservation.

### Can humans get CWD?

While there are no known cases of CWD infecting humans, the Centers for Disease Control and Prevention and the World Health Organization recommend people avoid consuming meat from any CWD-infected animal. The Pennsylvania Game Commission recommends hunters who harvest deer in a CWD-positive area get their deer tested prior to consuming.

### How can I tell if a deer has CWD?

CWD has a long incubation period, meaning it takes a long time for clinical signs to show. On average, CWD-infected deer don’t display clinical signs of disease for 18-24 months. As the disease progresses, infected individuals may exhibit lowered head, lowered ears, excessive drooling, wasting or thinning, rough coat, or abnormal behaviors like reduced fear of humans. Many diseases have clinical signs similar to CWD, therefore CWD cannot be diagnosed through observation alone.

### What should I do if I see a deer I suspect has CWD?

First, accurately document the animal’s location and immediately contact your local Game Commission Region Office. Do not attempt to disturb, kill, or remove the animal.

### What are high-risk parts?

High-risk parts include: head, specifically brain, tonsils, eyes, and retropharyngeal lymph nodes; spinal cord/backbone; spleen; skull plate with antlers attached; visible brain or spinal cord tissue is present; cape; visible brain or spinal cord tissue is present; upper canine teeth; root structure or other soft tissue is present; any object or article containing visible brain or spinal cord tissue; unfinished taxidermy mounts; brain-tanned hides.

### History of CWD in Pennsylvania

CWD was first detected in Pennsylvania in a captive deer facility in Adams County in 2012. Shortly after, 3 free-ranging CWD-positive deer were detected in Bedford and Blair counties. As a result, Disease Management Areas (DMA) 1 and 2 were created to prevent the spread of CWD to other parts of the state. Since CWD was first detected in the state, CWD has been detected in the following counties: Adams, Bedford, Blair, Cambria, Clearfield, Franklin, Fulton, Huntingdon, Indiana, Jefferson, Juniata, Lancaster, Perry, Snyder, Somerset and Westmoreland.

### Who is responsible for managing CWD?

The Pennsylvania Game Commission has authority over wild, free-ranging deer. Captive cervids fall under the jurisdiction of the Pennsylvania Department of Agriculture.
Hunting & CWD

We need your help to fight CWD!

Hunters are an integral component in successfully managing CWD in Pennsylvania. Hunters can help stop the spread of CWD by reducing the movement of and properly disposing of high-risk deer parts. Studies show prions can remain infectious in the soil for several years, so preventing the introduction of prions to uninfected areas is crucial.

Hunters can also help by harvesting antlerless deer within WMUs where CWD exists and getting their deer tested.

To date, reducing deer populations is the most practical option to reduce the growth and long-term effects of CWD. Deer population reductions immediately following CWD detections will affect deer populations in the short-term, but future deer populations will recover if the threat of CWD is diminished. The Game Commission recognizes lower deer populations are not a preferred option, but given what is known about CWD, allowing CWD to progress naturally is irresponsible and contrary to the Game Commission’s mission to manage deer for current and future generations of hunters and Pennsylvanians.

DISEASE MANAGEMENT AREAS

When a new CWD-positive is detected in either a wild or captive cervid in Pennsylvania, a Disease Management Area (DMA) is established.

DMAs are created to reduce the risk of human-assisted spread of CWD within DMAs.

Within DMAs, it is unlawful to:

- Remove or export any cervid high-risk parts from any DMA.
- Use or possess cervid urine-based attractants.
- Directly or indirectly feed wild, free-ranging cervids.
- Rehabilitate wild, free-ranging cervids.

Deer and elk are tested for CWD throughout the year, and new DMA boundaries might be established or expanded at any time. Maps are provided in this digest; however, boundaries may have changed since publication.

Hunters can visit www.pgc.pa.gov/CWD for the most up-to-date information.

CWD SURVEILLANCE

The Game Commission began monitoring CWD in 1998, more than 10 years prior to the state’s first CWD detection. As of March 2021, more than 100,000 deer had been tested for CWD in Pennsylvania.

Surveillance efforts include testing road-killed deer, hunter-harvested deer, escaped captive deer, and deer showing clinical signs of CWD. In addition, all hunter-harvested elk are tested for CWD.

As of March 2021, a total of 689 free-ranging deer had tested positive for CWD in Pennsylvania, 679 of them within DMA 2 and the remaining 10 in DMA 3. CWD only has been detected in captive deer in DMA 4.

ESTABLISHED AREA

An Established Area (EA) is a portion of a DMA where CWD detections occur contiguously and consistently from year to year.

In an EA, CWD is considered to be established within the deer population and, coupled with environmental contamination, poses a long-term threat to neighboring areas.

Pennsylvania has one EA, located within the larger boundaries of DMA 2. It includes all or parts of Blair, Bedford, Franklin, Fulton and Huntingdon counties. That’s all of WMU 4A and a portion of WMU 2C.

CWD sample prevalence rates in Pennsylvania’s Established Area (EA) have been climbing and, as of March 2021, stood at roughly 14 percent in hunter-harvested adult deer. That means nearly one in seven hunter-harvested adult deer that were sampled for CWD tested positive for the disease.

Experiences from other states suggest that, with no change, CWD prevalence among deer in Pennsylvania’s Established Area (EA) will continue to increase without deer population reductions.

There are regulations in place within the EA to reduce the risk of human-assisted spread of CWD.

Within an EA it is unlawful to:

- Remove or export any cervid high-risk parts from an EA.
- Use or possess cervid urine-based attractants.
- Directly or indirectly feed any wild, free-ranging cervids.
- Rehabilitate wild, free-ranging cervids.
High-risk deer parts can’t be moved

To prevent the human-caused spread of CWD, high-risk deer parts may not be moved from Pennsylvania’s Disease Management Areas (DMAs) and Established Area (EA), and into Pennsylvania from any other state or province. This now includes those states and provinces where CWD has yet to be detected.

Once the high-risk parts are removed, the following items can be moved outside of DMAs and EAs, and into Pennsylvania: meat with no part of the spinal column or head attached; cleaned hides without the head; skull plates and/or antlers cleaned of all brain tissue; upper canine teeth without soft tissue; or finished taxidermy mounts.

Hunters heading out of state should become familiar with that state’s wildlife regulations and guidelines for CWD, along with the Game Commission’s high-risk parts ban.

It is strongly recommended that hunters get their animals tested if hunting in a CWD-positive state. If, after returning to Pennsylvania, a hunter is notified by another wildlife agency that a harvested animal was CWD positive, the hunter is directed to contact the Game Commission for further instructions.

Free CWD testing in DMAs and EA

The Game Commission offers free CWD testing for hunters who harvest a deer within a DMA or the EA.

Hunters may submit their deer for testing by placing their deer head – double-bagged and with the harvest tag completed and firmly attached to the ear – in any Game Commission-provided head-collection container. Locations of these bins can be found at www.pgc.pa.gov/CWD.

Hunters can remove the antlers and/or skull cap and put the rest of their deer head into a collection bin for CWD testing. The antlers and skull cap must be free of any brain or spinal cord material to take them outside of a DMA or the EA.

Hunters who harvest a deer within a DMA and want to have their deer mounted can use any taxidermist located within the DMA or a taxidermist outside the DMA that has been approved by the Game Commission to accept high-risk parts. That list of approved taxidermists is available at www.pgc.pa.gov/CWD.

Hunters who harvest a deer within the EA and want to have it mounted can use any taxidermist located within the EA.

Some taxidermists may be able to pull a CWD sample for testing.

The Game Commission encourages hunters to check their test results on the CWD webpage. Click the “CWD Test Results and Surveillance Data” link under “Resources” and enter your hunting license CID number and date of birth. Hunters can also check their test results by calling the CWD hotline at 1-833-INFOCWD. Results take approximately three to four weeks.

All hunters whose deer test positive for CWD also will be notified by letter.

Outside of DMAs and the EA, hunters can get their deer tested through the Pennsylvania Animal Diagnostic Laboratory System for a fee. More information on that is available at the Department of Agriculture’s website, www.padls.agriculture.pa.gov.

Proper Deer Disposal

Hunters may properly dispose of high-risk parts with their commercial trash service, if trash is deposited in a lined landfill. Deer parts disposed of in this manner should be double bagged.

In addition, hunters who harvest deer within the EA can properly dispose of high-risk parts — double-bagged and sealed — in high-risk parts dumpsters provided by the Game Commission. High-risk parts disposal containers are no longer offered outside of the EA, however.

An updated list of high-risk parts dumpster locations is available at www.pgc.pa.gov/CWD.

Hunters harvesting deer within a DMA or the EA may leave high-risk parts, except the head, at the location of the kill site. It is recommended hunters bury any parts left in the field. The head must be properly tagged and packed out with the meat and cannot leave the DMA or EA in which the animal was harvested. For an antlered deer, hunters may also carry out the antlers with their completed kill tag attached to the antlers (skull capped or individually cut), allowing them to leave the high-risk parts at the kill site. In the case of an antlerless deer, they can bring out the caped head with tag attached.

Hunting outside Pennsylvania

It is unlawful to import high-risk cervid parts into Pennsylvania from any area outside of Pennsylvania. Pennsylvanians hunting out of state should check that state’s regulations for disposing of high-risk parts.
These maps are included to provide general information about the location of the state’s DMAs and EA, and help hunters to know if their hunting areas are within them. These maps were up to date as of the publication of this digest, but because deer are tested for CWD throughout the year, and newly detected CWD-positives can lead to DMA boundary changes, it’s possible the maps have changed and new areas are included. The most up-to-date information always can be found at www.pgc.pa.gov/CWD.
DMA 3, above, commonly is described as located in northcentral Pennsylvania. It’s 1,265 square miles and, as of publication of this digest, included portions of Armstrong, Cambria, Clarion, Clearfield, Indiana, and Jefferson counties. Exact boundary information can be found at www.pgc.pa.gov/CWD.

DMA 4, left, is located in southeastern Pennsylvania. It’s 743 square miles and, as of publication of this digest, included portions of Berks, Lancaster and Lebanon counties. Exact boundary information can be found at www.pgc.pa.gov/CWD. CWD has not been detected among free-ranging deer in DMA 4. The DMA was established after detection of a CWD-positive captive deer.
If you plan to hunt in a Disease Management Area (DMA) or the CWD Established Area this season, there are a handful of specific rules to follow. Here’s an easy 5-step guide outlining what you need to know.

**FIRST, KNOW WHERE YOU ARE**

Pennsylvania has three Disease Management Areas (DMAs) and one Established Area (EA). All are geographic regions where CWD has been found in deer. Special rules apply in each, including bans on feeding deer, the use and possession of cervid urine-based attractants, and export of high-risk cervid parts, all designed to limit the human-assisted spread of CWD.

So the first step is to make sure you know where you are.

Maps showing DMA and EA boundaries are available in this digest.

However, **boundaries might have changed** since publication, based on the location of newly discovered CWD-positive deer or elk. For the most up-to-date maps, visit the Game Commission’s website at www.pgc.pa.gov/CWD.

**SECOND, GO HUNT!**

CWD poses a serious risk to deer and our deer-hunting heritage.

But it’s not a reason to stop hunting. In fact, hunting is key to managing CWD. It minimizes chances of the disease spreading and, so long as hunters submit deer heads for testing, it offers a way to keep tabs on the disease.

The Game Commission encourages hunters to get into the woods by offering Deer Management Assistance Program (DMAP) permits in DMAs where increased harvest is needed. Each permit allows hunters to harvest an additional antlerless deer in places where the Game Commission is doing enhanced CWD surveillance. Hunters may get two permits per DMAP unit.

DMAP permits can be purchased at any local issuing agent or online at https://huntfish.pa.gov. More information on DMAP permits in DMAs, including how many are available and where, can be found at https://www.pgcapps.pa.gov/Harvest/DMAP.

**THIRD, HANDLE YOUR DEER PROPERLY**

It’s illegal to move high-risk deer parts outside of DMA and EA boundaries. So it’s important to have a plan for any deer you harvest.

If you take a deer within a DMA or EA, you can take it to any processor within those boundaries. Deer taken within a DMA but outside the EA can be taken to a Game Commission-approved processor just outside the DMA boundaries. A list of cooperating processors is available at www.pgc.pa.gov/CWD.

You can also process or quarter your own deer within those boundaries. It is recommended that high-risk parts are disposed of through commercial trash service that goes to a lined landfill. Hunters who kill a deer within the EA can also dispose of high-risk parts in one of the high-risk parts dumpsters provided by the Game Commission. Alternately, although not preferred, hunters can leave high-risk parts at the location of the kill site (preferably burying them) and pack their deer out. Hunters must pack out the properly tagged head and dispose of it within the DMA or, if the deer was harvested within the EA, within the EA boundaries.

**FOURTH, TAKE CARE OF YOUR MOUNT**

Pennsylvania offers the chance to harvest outstanding bucks. And all antlers from harvested bucks are cherished keepsakes. The good news is hunters can keep their buck’s antlers and still submit the rest of their deer head for testing.

Hunters can remove a buck’s antlers or the skull plate and take that home, provided no visible brain or spinal cord tissue remains. Hunters who want to have their deer head mounted can take their deer to any taxidermist within the boundaries of a DMA or the EA. Deer taken within a DMA but outside the EA can be taken to a Game Commission-approved cooperating taxidermist just outside the DMA boundaries. A list of cooperating taxidermists is at www.pgc.pa.gov/CWD.

Your taxidermist can provide you with the rest of the deer’s head for testing.

**FIFTH, GET YOUR DEER TESTED**

The Game Commission annually puts head-collection containers – bins that look like those used to collect clothing donations – at various places throughout the DMAs and the EA. Their exact locations are listed at www.pgc.pa.gov/CWD.

Hunters can drop their deer’s head, double-bagged, in a bin with the harvest tag filled out and firmly attached to the ear and get it tested for CWD for free.

Hunters can check their test results by calling the CWD hotline (1-833-CWDINFO) or by using the Game Commission’s CWD Test Results page at www.pgc.pa.gov/CWD.

With a little planning, hunters can pursue and harvest whitetails – even within a DMA or EA – and still have fun and make memories.
Hunting & Trapping Digest

This digest is not the Game & Wildlife Code or its attendant regulations and should not be considered final on legal interpretation.

The digest simply is a summary of the more important and frequently misunderstood hunting and trapping regulations.

Review the digest carefully. If there is anything you do not understand, contact your nearest Game Commission office.

Hunting and trapping are privileges in Pennsylvania. Remember, a license does not entitle you to trespass on private lands. Hunters and furtakers may be prosecuted for trespassing, whether or not a property is posted against hunting or trapping.

Always ask permission to hunt or trap, and make sure you are a welcomed guest of the landowner.

A private landowner who permits hunting or trapping does not extend assurance that the premises are safe and does not assume responsibility or incur liability for injury.
The Infinity FD rubber boot is a flawless fusion of simplicity and complexity. Inside of this classic rubber boot silhouette is cutting-edge technology that will bolster performance and enhance comfort in the most challenging conditions. The Infinity FD Flex-drive anti-fatigue, energy return system absorbs shock while propelling you forward. A NASA-inspired SOLARCORE aerogel lining added to the toe cap and bottom of the boot has been tested to retain 50% more heat to provide cold-crushing insulation and minimal bulk.

The body of the Infinity FD rubber boot is constructed from a scent-free rubber, perfect for the pursuit. With zero break-in, the Infinity FD rubber boot gives you infinite mobility and protection from the elements for limitless pursuits.
