## STATE GAME LANDS No. 024 CLARION & FOREST COUNTIES

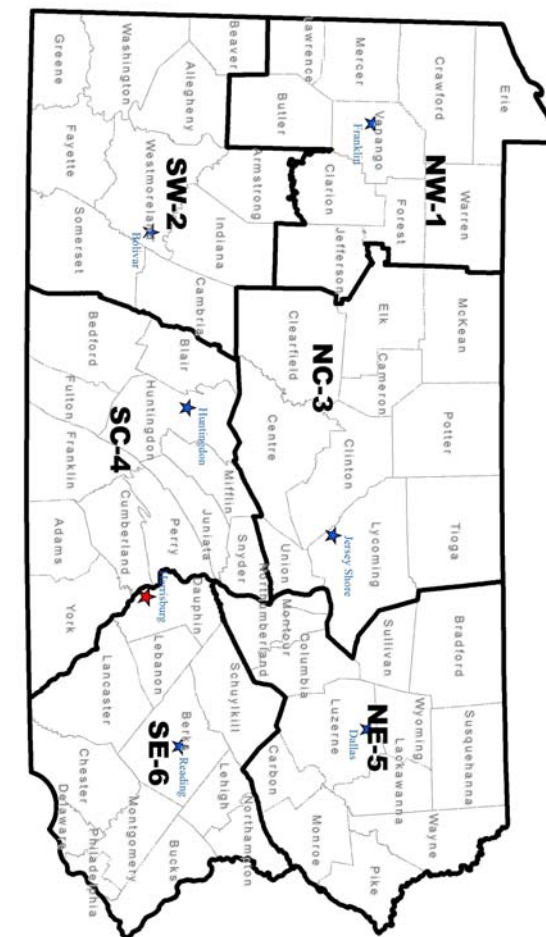

Each time a hunter buys a hunting license, the money he spends goes toward many facets of wildlife management. Since 1920, close to a million and a half acres of State Game Lands have been acquired with these funds. Each year nearly \$7,000,000 is spent to improve wildlife habitat. Habitat improvements enhance living conditions for non-game birds and mammals as well as those species which are hunted. Pennsylvania hunters willingly share these lands with the non-hunting public, and with few exceptions, State Game Lands are open for general use year round. Surveys indicate that hunting accounts for only thirty-five percent of game land usage. The remaining sixty-five percent is used by the general public for non-hunting purposes.

“Working Together for Wildlife” is a Game Commission program providing everyone an opportunity to help support wildlife management in the areas for endangered and non-game animals. Monies derived from the “Working Together for Wildlife” Program are being used in Pennsylvania to re-introduce the osprey, river otter, bald eagle, peregrine falcon and provide habitat for other birds and mammals indigenous to the Commonwealth. Construction placement of blue bird houses on State Game Lands provides needed homes for this beautiful songbird. Islands in the Susquehanna River have been set aside as propagations areas for non-game shore birds. Numerous other projects are planned on State Game Lands and other public properties which will also provide food and habitat for non-game wildlife.

The future of Pennsylvania’s wildlife resources requires the concern, cooperation and financial support of everyone, hunters and non-hunters alike. “Working Together for Wildlife” is the answer. Send your contributions to “Working Together for Wildlife”, 2001 Elmerton Avenue, Harrisburg, Pennsylvania 17110-9797.

State Game Land (SGL) 24 is comprised of one contiguous tract containing approximately 8,500 acres, located in southern Forest and northern Clarion Counties in the Pennsylvania Game Commission’s Northwest Region (Wildlife Management Unit 2F). SGL 24 is accessed via Golinza Road from the north, Carll Road from the west, Pine Hollow Road from the south and Wards Ranch and Blood Roads from the east.

Game Land 24 is dominated by terrestrial forest with approximately 94 percent of the total acreage classified as either terrestrial deciduous forest or terrestrial coniferous forest. The remainder of Game Land 24 is classified as palustrine forest, palustrine shrubland, terrestrial herbaceous openings, old field reverting shrubland, autumn olive-multiflora rose shrubland, water features and anthropogenic types (roads, parking areas and rights-of way). SGL 24 is best suited to big game hunting, as well as terrestrial furbearer trapping. Deer, bear and turkey hunting pressure is heavy. Grouse and squirrel hunting possibilities also abound. Non-game bird SOC include northern goshawk, blackburnian warbler, black-throated blue warbler and magnolia warbler.
