State Game Lands No. 75, comprising 27,499 acres, is located in northwestern Lycoming County. This mountainous and heavily forested tract contains several excellent small trout streams. The primary game species are bear, deer, turkey and ruffed grouse.

State Game Lands now totaling more than 1.5 million acres are purchased, managed and maintained primarily for outdoor recreation in the form of sport-hunting.

While portions of sportsmen’s license fees and taxes on sporting arms and ammunition have made the acquisition and development of these lands possible, other users are welcome. Recreation such as boating, fishing, hiking birdwatching, and nature study is encouraged.

The Game Commission is concerned with protecting and the perpetuations of non-game wildlife species, along with managing for an annual harvest of all game species. While sport hunting, embracing the elements of fair chase, is the ultimate goal in wildlife management, other benefits have enhanced the quality of life for all who enjoy the out-of-doors.

For benefit of all users, please respect posted rules and regulations. Entry upon posted wildlife refuges and propagation areas is prohibited. Motorized vehicles are prohibited on gated roads and trails; snowmobiles excepted where so designated and posted.
