State game land 108 is located in Chest, Clearfield, Dean, Reade, and White Townships, Cambria County as well as Anits Township, Blair County. It is in wildlife management units 2E and 4D, and currently has 12,762 acres.

The Game Commission currently maintains 62 public parking areas on SGL 108. There are 41.2 miles of maintained administrative roads throughout SGL 108, providing for public access to this area by foot. The farthest point on SGL 108 by foot from a parking area or public road is approximately 1 mile. Ten administrative roads, totaling 12.5 miles in length, are open for big game season (weather dependent). Otherwise, the roads are currently closed year-round to public motor vehicle traffic and access is controlled with locked gates. The gated roads and rights-of-way provide access for hunters and avenues for hiking, wildlife photography and bird-watching.

The most prevalent game species are deer, bear, turkey, grouse, woodcock and squirrel. Waterfowl hunting, primarily for wood ducks, Canada geese and mallards, also occurs in and around SGL 108. Areas on SGLs that support waterfowl hunting include Clearfield Creek and its tributaries and a complex of wetlands near the crew headquarters. Also, adjacent to SGL 108 is Prince Gallitzin State Park and Glendale Lake. The lake and the two bays formed by Killbuck Creek and Slate Creek respectively, offer excellent waterfowl opportunities. The bays extend onto SGL 108. Furtaking opportunities include raccoon, coyote, gray fox, fisher, beaver and bobcat. Stocking of ring-necked pheasant occurs on the SGL in areas of appropriate habitat.

A relatively large game land, SGL 108 is of sufficient size to accommodate horseback riding and mountain biking. There are five routes designated for these activities. There are also two designated trails for handicapped hunter access via approved motorized vehicles. One handicapped hunter access route begins at a parking lot located along the access road entering from Rt. 53 at the village of Frugality. The second is located at the Fiske parking lot, adjacent to Prince Gallitzin State Park, just west of the village of Fiske. There are 16 gated roads and trails used for management activities, along with multiple public utility lines which provide excellent avenues for hiking, bird watching, wildlife photography, and other similar forms of outdoor activities.

Each time a hunter buys a hunting license, the money he spends goes toward many facets of wildlife management. Since 1920, close to a million and a half acres of State Game Lands have been acquired with these funds. Each year nearly $7,000,000 is spent to improve wildlife habitat. Habitat improvements enhance living conditions for non-game birds and mammals as well as those species which are hunted. Pennsylvania hunters willingly share these lands with the non-hunting public, and with few exceptions, State Game Lands are open for general use year round. Surveys indicate that hunting accounts for only thirty-five percent of game land usage. The remaining sixty-five percent is used by the general public for non-hunting purposes.

"Working Together for Wildlife" is a Game Commission program providing everyone an opportunity to help support wildlife management in the areas for endangered and non-game animals. Monies derived from the "Working Together for Wildlife" Program are being used in Pennsylvania to re-introduce the osprey, river otter, bald eagle, peregrine falcon and provide habitat for other birds and mammals indigenous to the Commonwealth. Construction placement of blue bird houses on State Game Lands provides needed homes for this beautiful songbird. Islands in the Susquehanna River have been set aside as propagation areas for non-game shore birds. Numerous other projects are planned on State Game Lands and other public properties which will also provide food and habitat for non-game wildlife.

The future of Pennsylvania's wildlife resources requires the concern, cooperation and financial support of everyone, hunters and non-hunters alike. "Working Together for Wildlife" is the answer. Send your contributions to "Working Together for Wildlife", 2001 Elmerton Avenue, Harrisburg, Pennsylvania 17110-6797.
