## STATE GAME LANDS No. 193 UNION COUNTY

Each time a hunter buys a hunting license, the money he spends goes toward many facets of wildlife management. Since 1920, close to a million and a half acres of State Game Lands have been acquired with these funds. Each year nearly \$7,000,000 is spent to improve wildlife habitat. Habitat improvements enhance living conditions for non-game birds and mammals as well as those species which are hunted. Pennsylvania hunters willingly share these lands with the non-hunting public, and with few exceptions, State Game Lands are open for general use year round. Surveys indicate that hunting accounts for only thirty-five percent of game land usage. The remaining sixty-five percent is used by the general public for non-hunting purposes.

“Working Together for Wildlife” is a Game Commission program providing everyone an opportunity to help support wildlife management in the areas for endangered and non-game animals. Monies derived from the “Working Together for Wildlife” Program are being used in Pennsylvania to re-introduce the osprey, river otter, bald eagle, peregrine falcon and provide habitat for other birds and mammals indigenous to the Commonwealth. Construction placement of blue bird houses on State Game Lands provides needed homes for this beautiful songbird. Islands in the Susquehanna River have been set aside as propagations areas for non-game shore birds. Numerous other projects are planned on State Game Lands and other public

State Game Lands No. 193, consists of 325.92 acres, located in Union County approximately four miles west of Winfield within the Pennsylvania Game Commission's Northcentral Region and Wildlife Management Unit 4E. The game land is one tract bisected by a township road.

State Game Land 193 has very good access and is bisected by Supplee Mill Road. There is a parking area and two gated roads located here. The gated roads provide walk in access for the public and administrative access for Game Commission personnel. There is a public walking trail that is located in the northwest corner of the game land that is maintained by the Merrill Linn Land and Waterways Conservancy.

Located in the West Branch of the Susquehanna River watershed, State Game Land 193's topography is mostly gently rolling hills; the highest elevation of 900 feet is found near the northeast corner on the Shamokin Mountain and the lowest elevation of 560 feet is near the southeast corner. The Game Lands is primarily of forested.

For hunting and trapping there are a wide variety of game species. The more common species for hunting include white-tailed deer and wild turkey. Trappers have the opportunity for a wide variety of mammals including the red and gray foxes, eastern coyote, raccoon, opossum, and skunk. Mammal species of concern that might occur on this game lands would include Appalachian cottontail
