State Game Lands No. 197, consists of 1,555 acres, located in northwestern Warren County north of Columbus near the New York state line. The terrain is gently rolling and includes the Tamarack Swamp, an excellent example of a kettle bog in the northwestern glaciated portion of Pennsylvania. Primary game species are deer, turkey, squirrel and grouse.

State Game Lands now totaling more than 1,492,861.20 acres are purchased, managed and maintained primarily for outdoor recreation in the form of sport-hunting.

While portions of sportsmen's license fees and taxes on sporting arms and ammunition have made the acquisition and development of these lands possible, other users are welcome. Recreation such as boating, fishing, hiking, birdwatching, and nature study is encouraged.

The Game Commission is concerned with protecting and perpetuations non-game wildlife species, along with managing for an annual harvest of all game species. While sport hunting, embracing the elements of fair chase, is the ultimate goal in wildlife management, other benefits have enhanced the quality of life for all who enjoy the out-of-doors.

For benefit of all users, please respect posted rules and regulations. Entry upon posted wildlife refuges and propagation areas is prohibited. Motorized vehicles are prohibited on gated roads and trails; snowmobiles excepted where so designated and posted.
