## SPORTSMEN'S RECREATION MAP

### STATE GAME LANDS No. 210 DAUPHIN COUNTY

Each time a hunter buys a hunting license, the money he spends goes toward many facets of wildlife management. Since 1920, close to a million and a half acres of State Game Lands have been acquired with these funds. Each year nearly \$7,000,000 is spent to improve wildlife habitat. Habitat improvements enhance living conditions for non-game birds and mammals as well as those species which are hunted. Pennsylvania hunters willingly share these lands with the non-hunting public, and with few exceptions, State Game Lands are open for general use year round. Surveys indicate that hunting accounts for only thirty-five percent of game land usage. The remaining sixty-five percent is used by the general public for non-hunting purposes.

“Working Together for Wildlife” is a Game Commission program providing everyone an opportunity to help support wildlife management in the areas for endangered and non-game animals. Monies derived from the “Working Together for Wildlife” Program are being used in Pennsylvania to re-introduce the osprey, river otter, bald eagle, peregrine falcon and provide habitat for other birds and mammals indigenous to the Commonwealth. Construction placement of blue bird houses on State Game Lands provides needed homes for this beautiful songbird. Islands in the Susquehanna River have been set aside as propagations areas for non-game shore birds. Numerous other projects are planned on State Game Lands and other public

PENNSYLVANIA GAME COMMISSION

State Game Land (SGL) 210 is situated wholly in Dauphin County within the Pennsylvania Game Commission's Southeast Region. It is 11,124 acres in size and is nearly bounded on all sides by either DCNR lands or Forest Game cooperative lands. This makes SGL 210 a very desirable recreational destination for hunters and others.

Game land 210 is in Wildlife Management Unit 4C and is home to a road open to disabled hunters and a snowmobile trail. Only 4 maintained parking lots serve the game land but access is augmented by numerous pull offs and the adjacent DCNR lands that include several additional lots.

The property is located on a rolling plateau situated between Broad Mountain and Peter's Mountain. Elevation ranges from 1,650 feet on the eastern part of the game land to 800 feet along the western edge.

SGL 210 is located in Wildlife Management Unit 4C and is a popular destination with big game hunters. This game land provides good opportunities for hunting woodland wildlife, such as deer, bear, turkey, coyotes, grouse, and squirrels, and some limited opportunities for grassland species, such as rabbits. The entire length of Greenland Road bisects the game land from east to west and is open to horseback riding, mountain biking, and from January 15th thru March 31st is designated as a snowmobile trail. In addition an alternative trail that junctions with the Greenland Road may be ridden by snowmobile riders that links up with Luke's Trail in the northwestern portion of the tract and continues onto the Haldeman tract of the Weiser State Forest. There are many opportunities for hiking on the more than 26 miles of roads and trails found on the property. Birdwatching is a popular activity on SGL 210, as is cross-country skiing.
