**STATE GAME LANDS**

**INDIANA COUNTY**

1 inch = 3,000 feet

January 2014
State Game Lands No. 248, consists of 817 acres, located in Indiana County. The terrain is mountainous and mostly wooded. Woodland openings and backfilled strip mines are maintained in grass, interspersed with shrubs and conifers. Deer, rabbits, squirrel and grouse are found here.

State Game Lands now totaling more than 1,492,861 acres are purchased, managed and maintained primarily for outdoor recreation in the form of sport-hunting.

While portions of sportmen’s license fees and taxes on sporting arms and ammunition have made the acquisition and development of these lands possible, other users are welcome. Recreation such as boating, fishing, hiking birdwatching, and nature study is encouraged.

The Game Commission is concerned with protecting and perpetuations non-game wildlife species, along with managing for an annual harvest of all game species. While sport hunting, embracing the elements of fair chase, is the ultimate goal in wildlife management, other benefits have enhanced the quality of life for all who enjoy the out-of-doors.

For benefit of all users, please respect posted rules and regulations. Entry upon posted wildlife refuges and propagation areas is prohibited. Motorized vehicles are prohibited on gated roads and trails; snowmobiles excepted where so designeated and posted.

For current conservation-sport hunting information, read the Pennsylvania Game News and visit the Pennsylvania Game Commission’s home page [http://www.pgc.state.pa.us](http://www.pgc.state.pa.us) or write to the Pennsylvania Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

Each time a hunter buys a hunting license, the money he spends goes toward many facets of wildlife management. Since 1920, close to a million and a half acres of State Game Lands have been acquired with these funds. Each year nearly $7,000,000 is spent to improve wildlife habitat. Habitat improvements enhance living conditions for non-game birds and mammals as well as those species which are hunted. Pennsylvania hunters willingly share these lands with the non-hunting public, and with few exceptions, State Game Lands are open for general use year round. Surveys indicate that hunting accounts for only thirty-five percent of game land usage. The remaining sixty-five percent is used by the general public for non-hunting purposes.

"Working Together for Wildlife" is a Game Commission program providing everyone an opportunity to help support wildlife management in the areas for endangered and non-game animals. Monies derived from the "Working Together for Wildlife" Program are being used in Pennsylvania to re-introduce the osprey, river otter, bald eagle, peregrine falcon and provide habitat for other birds and mammals indigenous to the Commonwealth. Construction placement of blue bird houses on State Game Lands provides needed homes for this beautiful songbird. Islands in the Susquehanna River have been set aside as propagations areas for non-game shore birds. Numerous other projects are planned on State Game Lands and other public lands.
