Viewing Areas are located along Winslow Hill Road, Benazette, PA

Woodring Guided Hike Details: The guided hike is a ¾ miles long loop trail with an observation deck offering a scenic vista view. The beginning of the hike has an incline. The trail is unpaved, with uneven surfaces. The interactive guided hike has several stopping points where we use props such as skulls, antlers, and photos to discuss wildlife and habitat management. The hike lasts about 1 hour. Wear proper footwear and bring plenty of water and a camera!
