PROPOSED RULE MAKING

A. Amend 58 Pa. Code § 141.47

Commentary: The Commission historically required mandatory hunter orientation for all hunters that were successfully drawn for an elk license. The purpose of this orientation was to provide hunters with important information about this unique hunt. The Commission has since transitioned away from this in-person orientation training and instead provide hunters with all of the necessary instructions by mail with their licensing materials. Considering this change, the Commission is proposing to amend § 141.47 (relating to elk seasons) to eliminate the outdated reference to the elk season orientation.

CHAPTER 141. HUNTING AND TRAPPING
