¹Compiled from the Birds of Pennsylvania, Cornell University Press (McWilliams and Brauning 2000) and Pennsylvania Ornithological Records Committee (Pennsylvania Birds Volume 14: 109, amended), updated to reflect the latest taxonomy by the American Ornithological Society, reflecting birds known in the current era (since about 1600).
Updated January 26, 2011.

Note: These list is annotated, with labels defined by the Pennsylvania Society for Ornithology, as listed below, to reflect the number of years in which the species has been recorded, not the number of occurrences within one year. Therefore, 100 occurrences in one year of the last ten years would still be classified as Accidental.

Regular: Species recorded 8, 9, or 10 of the last ten years

Casual: Species recorded 4, 5, 6 or 7 of the last ten years

Accidental: Species recorded 3 or fewer of the last ten years
